# Tang Xiaotuan Roams Chinese History Series

7-12  
years

This series is a present from a mother for her daughter. Gu Qingping, who is very fond of history, hopes to share the charm of history with her daughter.

However, the girl shows no interest in the subject because she believes "history is no fun". How could history be no fun? It just needs to be read in a new way. Tang Xiaotuan series presents Chinese history in a totally new form and will definitely excite kids!

6-12  
years

# Tang Xiaotuan's History of Ancient Chinese Civilization

This comic series carefully selects classical stories of the Confucian Analects, the Book of Songs, and Zuo's Commentary. Part of this content appears in Chinese language class of high and middle schools. The series interprets ancient Chinese civilization through definitions, sources, classical stories, and from many other perspectives, helping children understand classical Chinese civilization and the stories behind it.

# Tang Xiaotuan's History of Chinese Idioms

This book explains the origin and stories of Chinese idioms with a comic, helping children understand difficult idioms. It is not a mere book of idioms, but a series of historic tales that enable young readers to know the origin of these idioms and learn how to use them.

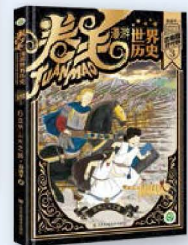

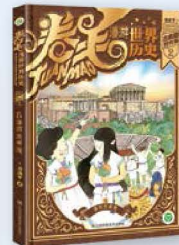

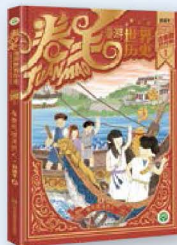

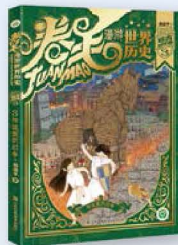

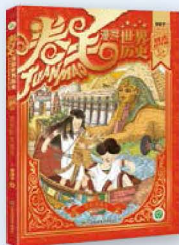

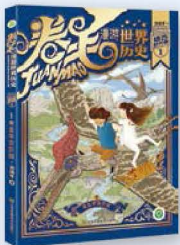

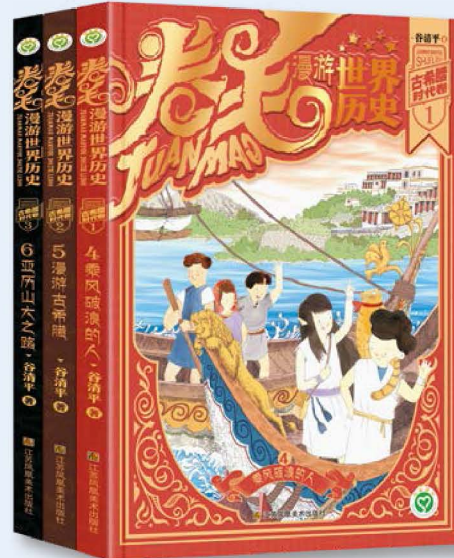

# Juan Mao Roams World History Series

7-12  
years

This series of illustrated books perfectly combines world history and adventure. It continues the writing style of Tang Xiaotuan Roams Chinese History, allowing young readers to quickly become immersed in the story. These interesting, and stimulating adventure stories make children be curious about the world around them and provide them knowledge about different lifestyles, thoughts, and cultures in the long river of world history, broadening their horizons.

The book contains enchanting illustrations that ingeniously portray the clothing, food, housing, and transportation of ancient civilizations.

Juan Mao Roams World History Series is continuing to be updated...

## Where are the Stars?

Have you ever thought that, when pollution reaches a certain degree, it will be impossible to see any stars in the sky?

One day, third-grade Gu Doudou asked herself the question "Where did the stars go?"

As a result, she went to the constellation Caius, the origin of the stars, with the help of creatures from another dimension.

In a world full of ancient Greek gods, she will have to gather the twelve zodiac signs to allow the disappearing stars to shine again.

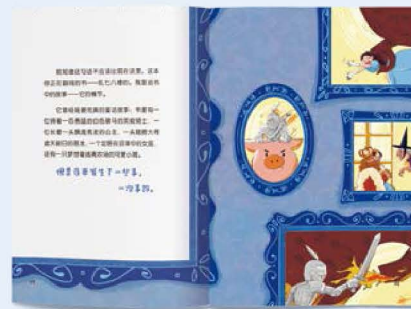

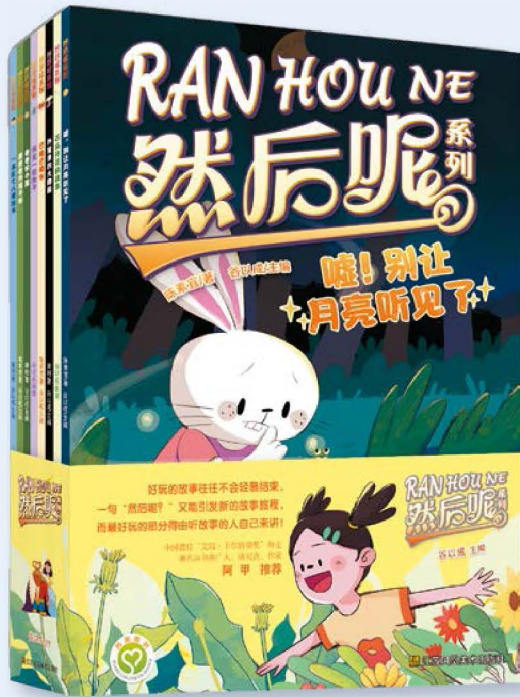

# What Happened Then? Series

Each one of the eight volumes of the "What Happened Then?" series is a story full of imagination. Each tale has a beginning and a conclusion that are food for thought, allowing every reader to understand them in their own way.

Bringing children from reading picture books to books without illustrations, this series effortlessly lets children fall in love with reading between laughter.

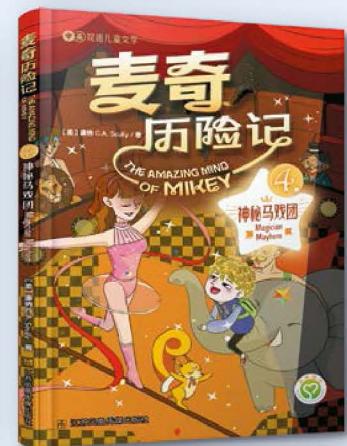

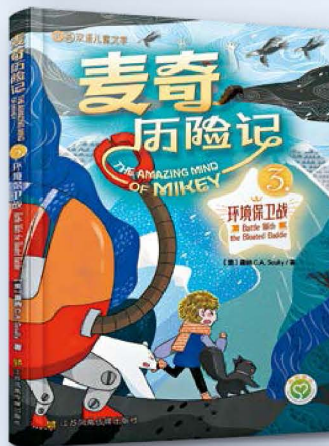

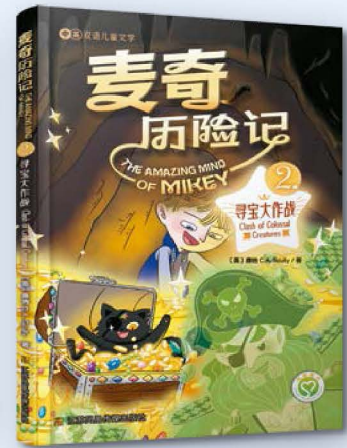

8-12  
years

# The Amazing Mind of Mikey Series

This Chinese-English series is a bilingual bridge for joyful reading that arouses children's interest in books. Reading it can nurture children's imagination and sense of humor. Growing together with Maiji, children can learn how to communicate with people, conform to norms in their words and deeds, and develop their responsibility and confidence. At the end of the book there is an annex with an English fun quiz to help students consolidate the reading and expand their knowledge.

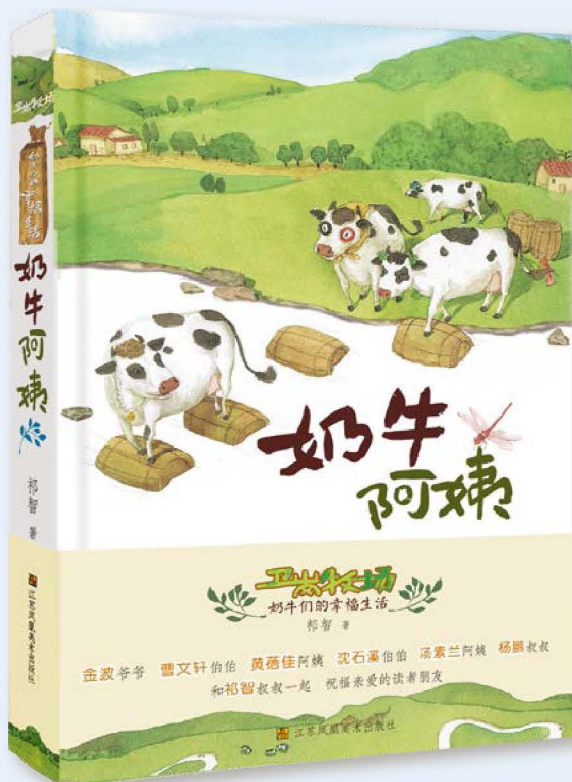

# Aunt Cow

There is not a person in Nanjing who has not drunk Weigang milk. However, do you know the story of Weigang cow? Taking the Weigang Pasture as the background of the story, the book Aunt Cow depicts the happy life of cows growing in this pasture, with fresh and warm anthropomorphic expressions.

Opening the book, one could feel the beauty of nature as if placed on the green grass.

# Supercat on the Warship

7-10  
years

This is a picture book on Second World War history from the perspective of a cat. Returning to the true battlefield, it allows children to experience the cruelty and mercilessness of war. However, it also shows the benevolence, the thirst for peace, and the praise for life of people in the war across national borders.

The book presents a famous warship during the Second World War and reproduces classical battles of this war: the beginning and end of the pursuit of battleship Bismarck and the details of its surrounding and destruction.
