WARDEST CONGRATULATIONS ON 
THE ANNIVERSARY OF CHANGCHUN NEW AREA!

CHANGCHUN NEW AREA LOOKING FORWARD

This past year, commercial commerce, and investments have flourished in the area, contributing to the development and growth of the city. The Changchun New Area is moving forward with its strategic plans, focusing on sustainability and innovation. The area is committed to building an eco-friendly city, integrating green development principles into its urban planning. The Changchun New Area plans to transform itself into an open, competitive, and innovative region, driven by the automotive industry and other key sectors. The area is poised to become a new and powerful economic engine for northeastern China, fostering economic growth and development. With a focus on green development, the area aims to build a sustainable future, combining economic success with environmental responsibility. The Changchun New Area is on a trajectory of growth and transformation, setting a precedent for sustainable urban development in the region.
