

SUMMARIZED LIST OF PROJECTS OPEN TO FOREIGN INVESTMENT OF CHANGSHA IN 2018

No.	Project Name	Project Profile	Cooperation Mode	Investment Funds (RMB Ten Thousand)	Preliminary Work	Name of Project Unit	Project Contact Person & Contact Person
I. Development Projects in Key Districts and Urban-Rural Integration Pilot Towns (22 Projects)							
1. Development Projects in Key Districts (18 Projects)							
1	Development and Construction Project of Hunan Financial Center in Hunan Xiangjiang New Area	<p>Hunan Financial Center is located at the west bank of Xiang River, Changsha. It is the core district of the starting area of the national Xiangjiang New Area - Binjiang New Town. The planning area is 2.8 square kilometers, and the total building area is 6,800,000 square meters. It neighbors Xiang River in the east, Yinshan Road in the west, the Fisherman's Wharf in the south and Beijincheng Park in the north. Under the leadership of the government, developed and operated by Changsha Pilot Investment Holdings Group, a national regional financial center based on the central and covering the west will be built. It has gathered the national headquarters of Bank of Changsha, Bank of Sanxiang and Jixiang Life Insurance, the provincial branches of China Minsheng Bank, SPD Bank and CGB, and more than 20 headquarters of different financial institutions such as Kaiyuan Securities, Orient Asset and Changyin 58 Consumer Finance. It is proposed to introduce financial enterprise headquarters to reside in for development or strengthful developers for cooperative development and construction.</p> <p>A4 block is located at the east of Xiaoxiang Middle Road, the south of Guyue Road, the west of Binjiang Landscape Road and the north of the Sixth Branch. It covers an area of 60.21 mu, with the floor area ratio of 4.0, the commercial and residential ratio of 5:5, and building area of 160,568 square meters. It is proposed to introduce the industrial project of the international financial and trade center.</p> <p>C10 south block, a commercial and financial land, is located at the southeast corner of Fuyuan Road Bridge and Binjiang Landscape Road. It covers an area of 89.1 mu, with the floor area ratio of 1.0, and building area of 59,427 square meters. It is developed as the Phase II land of the fund town.</p> <p>A2 block is located at the southeast corner of the intersection of Chazishan Road and Yinshan Road. It covers an area of 224.5 mu, with the floor area ratio of 4.0, the commercial and residential ratio of 3:7, and building area of 598,723 square meters. It is an important comprehensive supporting project in the core district of Hunan Financial Center.</p>	Cooperation	/	Project infrastructure completed; Concept planning of Hunan Financial Center basically completed; investment invitation underway.	Commerce Bureau of Yuelu District Changsha Pilot Binjiang New Town Construction Investment Co., Ltd.	Lin Yuan 15211124709 Wang Lang 13548619496

2	<p>Yanghu Headquarters Economic Zone Development & Construction Project</p>	<p>Yanghu New Town, with the planning area of 11.98 square kilometers, is the starting area of the core district of the national Xiangjiang New Area, Hunan and the headquarters of economic zone. It will be built into the chief ecological headquarters base and the ecological livable area in the central region. The new town has gradually became mature and complete, and more than 30 projects and enterprises have settled in. Among them, there are the headquarters of more than 30 large enterprises, chambers of commerce and associations, including headquarters of Hunan Architectural Design Institute, Hunan Rural Credit Cooperative and Pilot Investment Holdings Group, Hunan headquarters of China Energy Conservation and Environmental Protection Co., Ltd., Gehigh Group and CAPOL, Hunan Association for Public Companies, Hunan headquarters of Tencent Video, etc. IKEA and LOHO Paradise Street are expected to be officially opened in 2019, and IKEA Huiju Shopping Center is expected to be opened in 2020. The project focuses on the introduction of two major blocks, and it is proposed to introduce the headquarters of well-known enterprise groups and the commercial complex developers.</p> <p>1. H-40 and H-49 block of Yanghu. The project is located at the south side of Yanghu Wetland Park, having IKEA in the east, Metro Line 8 and Lushan International Experimental School in the west, and Yanghu National Wetland in the north. It covers an area of nearly 300 mu, and the surrounding businesses, medical treatment, subway, education and environmental resources are complete and perfect.</p> <p>2. I-16 block of Yanghu. The project is located at the south side of Yanghu Wetland Park, having Sino-Canada International School in the east, IKEA in the west, and Yanghu Wetland Station of Metro Line 3 in the north. It is a pure commercial land, covering an area of 63 mu, with the floor area ratio of 4.0. As the economic bridgehead of Yanghu headquarters, it is blessed with unsurpassed advantages of display</p>	<p>Sole-venture, Cooperation</p>	/	<p>Land expropriation and demolition completed; “ Five Availables and Site Leveling ” have been completed, and investment is in the process.</p>	<p>Commerce Bureau of Yuelu District</p> <p>Changsha Pilot Yanghu Construction Investment Co., Ltd.</p>	<p>Lin Yuan 15211124709</p> <p>Yi Xiaoxiao 18569500926</p>

3	Meixihu CBD (Central Business District) Development & Construction Project	<p>The project is located at Meixihu International New City in Xiangjiang New Area, Hunan. Composed of six plots, the project has a total building area of about 994,000 square meters. It is planned to construct such projects as super high-rise buildings (including north tower as high-end office building), high-end boutique business, boutique hotels, and underground integrated traffic center so as to provide advanced office, financial and commercial services for the advantageous projects, such as advanced manufacturing industry and modern service industry within the area.</p> <p>The project is divided into three phases to sell. F13/14 block of Phase I, positioned as a high-end grade A office building, is the commercial and residential land. The red line area is about 54 mu, and the total building area is about 252,000 square meters; F13 block has been sold and planned to start construction in 2018. F09/10 block of Phase II, the commercial land, is not sold. The red line area is about 70 mu, and the total building area is about 210,000 square meters; F19/20 and B50 block of Phase III, the commercial and residential land, have been sold. The red line area is about 130 mu, and the total building area is about 532,000 square meters.</p> <p>It is proposed to introduce some enterprises to purchase land and build headquarter buildings or well-known real estate developers to join the development on a cooperative basis.</p>	Cooperation	840000	On the project land, the supporting facilities have been completed, and the land transfer conditions are met.	Commerce Bureau of Yuelu District Meixihu Investment (Changsha) Co., Ltd.	Lin Yuan 15211124709 Yi Xia 13974837347
4	Xiangjiang New Area International Healthcare City Investment Invitation Project	<p>The project is located at Phase II of Meixi Lake New International City of Xiangjiang New Area, Hunan and the project is positioned by Changsha City as a healthcare industrial cluster, integrating functions such as medical service and R&D, health management, rehabilitation and nursing, with the international first-class high-end specialized hospital cluster as its core, and it will create the whole life and health industry chain of "medical service, health care, research, business, and tourism". At present, many famous enterprises, such as BGI, Genetalks, EYE, YIDA, and Taikang, etc., have been introduced to settle in.</p>	Cooperation	/	The industrial planning and the first concept research have been completed; BGI is in deep discussion of cooperation agreement; Genetalks is handling preliminary procedures of land taking; the commencement ceremony of EYE International Medical and Health City Project has been held; the land use of Yida Medical Health Science and Technology City Project and Taikang Community - Xiang Garden Project has been delisted.	Commerce Bureau of Yuelu District Meixihu Investment (Changsha) Co., Ltd.	Lin Yuan 15211124709 He Zhi 13873106648

5	Malan Mountain Video Cultural and Creative Industrial Park Project	<p>The core area of the district is 5 square kilometers, which is divided into 2 square kilometers built-up area (namely, Hunan Golden Eagle Broadcasting City) and 3 square kilometers new area (namely, Yazipu). Yazipu Area extends from Sanyi Avenue in the north, Wanjiali Road in the east, and is encircled by the Liuyang River in the west and south. The total area is about 4,200 mu, with the construction land area available for development of about 1,600 mu. And the rest area is land for the district road network, medical treatment, education, parkland and other supporting facilities. Taking the Hunan Golden Eagle Broadcasting System as the support, Hunan culture as the foundation, “culture +” “Internet +” as the means, “culture + science and technology” as the direction of development, digital video as the leading industry and digital video creativity as the leader, Malan Mountain Video Cultural and Creative Industrial Park is a cultural and creative gathering area of the whole industry chain cluster with matched and derived digital videos. The goal is to build a “China's Visual Valley” with international competitiveness, an ecological incubator for digital video innovation enterprises, a digital video content production base, a video copyright trading market, and a video copyright derivative industry agglomeration area.</p>	Sole-venture, Joint-venture, Cooperation	3000000	<p>The operation mechanism of “one group and three platforms” has been set up; a leading group on the development and construction of industrial parks has been set up in the city; Urban Investment Group and Hunan Golden Eagle Broadcasting respectively set up the industrial park operation platform and incubation platform; the development concepts of “integration of science and literature, cross-border interaction, makers gathering and symbiotic development ” have been defined; the development thoughts of “government leading, overall planning, diversified investment and market operation ” and the operation mode of “development separation of the first and second level, and development by groups ” have been clarified. The Administrative Committee of Malan Mountain Video Cultural and Creative Industrial Park has unveiled the nameplate; the investment attraction & exhibition center is under construction; the construction of the planning and exhibition hall is also being promoted simultaneously, and the section demolition work has been completed.</p>	Commerce and Tourism Bureau of Kaifu District	<p>Huang Long +86-731-84377671 13807319953</p>

7	Changsha Airport Economic Zone Project	<p>On May 9, 2017, Changsha Airport Economic Demonstration Zone was formally established by the approval of the National Development and Reform Commission and Civil Aviation Administration of China, and became the seventh national airport economic demonstration zone throughout the country. Changsha Airport Economic Demonstration Zone (hereinafter referred to as “the demonstration zone”) is located at the east side of the main city of Changsha. The planning scope contains 9 towns (sub-district) under the jurisdiction of Changsha County, Yuhua District and Furong District, including the platform carriers such as Changsha Economic & Technical Development Zone, Changsha Huanghua International Airport Aviation Industry Function Area, Changsha Huanghua Comprehensive Bonded Zone and HSR New City. Among them, Changsha Huanghua International Airport, Huanghua Comprehensive Bonded Zone and the surrounding 40 square kilometers are the core areas. The demonstration zone will be planned and built in accordance with the overall spatial layout of “one axis, two cores and three groups”, including the linkage development axis of the aviation and the high-speed rail, the “two cores” of the aeronautical and high-speed rail transport service, the three groups of the core group, the high-speed rail group and Xingma group. Taking Huanghua Airport as the support, aeronautical services, aeronautical logistics, airport high-tech and other industries as the core functions, and various services supporting industries as the auxiliary functions, and deeply integrating modern information technology, the demonstration zone will be built as a model of the national airport economic demonstration zone with high-end industry, outstanding features and excellent environment.</p> <p>We sincerely invite domestic and foreign large aeronautical services, aeronautical maintenance, aeronautical supporting, international and domestic air freight enterprises and high-end R & D or high-tech, domestic or regional headquarters of large companies, well-known domestic and foreign commercial real estate companies, international trade enterprises and other types of export-oriented enterprises and supporting services enterprises.</p>	Cooperation, Joint-venture, Sole-venture	Class-1.5 land development mode	/	<p>1. Grasp the compilation of regional planning</p> <p>2. Do an all-out sprint for project construction</p> <p>3. Accelerate the improvement of infrastructures</p>	Commerce Bureau of Changsha County	Yi Juan +86-731-84011226
---	--	--	--	---------------------------------	---	--	------------------------------------	-----------------------------

8	Changsha Huanghua Comprehensive Bonded Zone Project	<p>Changsha Huanghua Comprehensive Bonded Zone was formally established by the approval of the State Council on May 31, 2016. The planning area is 1.99 square kilometers, which is divided into two phases to build. Phase I is 1.2 square kilometers. In the zone, the key work is to construct the import and export commodity exhibition and transaction center, cross-border e-commerce supervision center, drug import public service platform, fresh bonded warehouse, bonded R & D port, bonded research and development port, medical equipment allocation center, bonded luxury goods store, infrastructure equipment exhibition and transaction center, art exhibition and auction center, cultural trade bonded park, intelligent equipment industrial park, e-commerce headquarters base, central south international conference center, aeronautical training base and other projects. It is mainly to build the three core functions of bonded warehousing, logistics processing and business communication, and to improve the four supporting functions of industrial park, business office, cultural exhibition and comprehensive service. As an important export-oriented economic development platform in Hunan, Changsha Huanghua Comprehensive Bonded Zone plays a very important driving and promoting role in promoting the level of Hunan's opening to the outside world, speeding up the pace of industrial transfer at home and abroad, promoting industrial structure optimization and economic transformation and upgrading, and building an open economic new grid in an all-round way. In the future, it will become a new engine for open development, a new base for foreign trade services, a new platform for the airport economy and a new battlefield of structural optimization of Changsha and even Hunan.</p> <p>We sincerely invite domestic and foreign bonded processing, logistics, trade, and service enterprises, which accord with industry guide of Huanghua Comprehensive Bonded Zone, to settle in.</p>	Cooperation, Joint-venture, Sole-venture	500000	<p>The encircling gear area of Phase I of Changsha Huanghua Comprehensive Bonded Zone is 0.77 square kilometers. It formally passed the joint acceptance check of the ten ministries and commissions of the state on June 8, 2017, and was officially put into operation on June 25, 2017. Afterwards, during half a year, there were more than 200 projects under discussion, more than 120 registered enterprises, more than 60 operation and production enterprises, 37 enterprises producing import and export performance, and import-export volume of \$900 million in 2017.</p>	Administrative Committee of Changsha Huanghua Comprehensive Bonded Zone	<p>Ren Yongsheng</p> <p>13677318265</p> <p>Wang Hao</p> <p>13607490233</p>
9	HSR New City Wuguang District Project	<p>HSR New City Wuguang District is located at the southeast portal of Changsha, with Beijing-Zhuhai Expressway in the west, Xiangfu East Road in the south, and picturesque Liuyang River in the east and north. It is planned to be a highland integrating international commercial area, headquarter economy and modern service industry as well as high-quality residential area. The district is positioned as a comprehensive traffic hub in Central South China, sub-center of Changsha urban development, and urban commercial center covering the Changsha-Zhuzhou-Xiangtan Urban Cluster, and a demonstration zone for the economical and intensive land using across the country. The total area is about 17.8 square kilometers, in which 8 square kilometers is for the core area while 3 square kilometers for central business district.</p> <p>In the district, there are eight plots that can be transferred for development (E-15-1, E-19-1, E-23-1, E-23-2, E-05, F-02-2, E-16, E-12), with 639mu land available for highly dense development of commerce, finance land or commercial and residential land.</p>	Sole-venture, Cooperation	1600000	<p>All land demolitions have been completed to reach the conditions of listing. The project plan has been basically fixed, ready for bid invitation, auction and listing.</p>	Administrative Committee of Changsha High-Speed Rail New City	<p>Liu Keming</p> <p>15200916568</p>

10	Longping New District Development & Construction Project	<p>Longping New District is located in the east of Liuyang River with an area of 23.93 square kilometers. It is the core part of Changsha City's plan of creating an regional international city and the strategic implementation of “empowering the west and exploring the east” of Furong District, and is also an important comprehensive traffic hub in the “excellent demonstration zone” of Changsha-Zhuzhou-Xiangtan Region.</p> <p>The planned construction project is dominated by the residence, commerce and finance. It is planned to build Longping New District into a real modern new city with prosperous commerce, harmonious ecology, pleasant environment and developed economy.</p> <p>We sincerely invite the companies engaged in finance, business and trade, hotel, catering, leisure and recreation and real estate development for investment and development.</p>	Cooperation	1000000	In-depth planning has been completed. Now some lands are listed for auction and investment invitation.	<p>Commerce and Tourism Bureau of Furong District</p> <p>Furong Urban Construction Investment Co., Ltd.</p>	<p>Zou Qiong +86-731-84683365 13467710808</p> <p>Yi Wei 13874991985</p>
11	Kaifu District Sutuoyuan Ecological Service New Town Development & Construction Project	<p>The project is located in the east of Furong North Road, the south of Chujiahu and North 2nd Ring, and the north of Laodao River, with a construction area of 452.34 hectares, a water area of 279.96 hectares, agricultural and wood lands of 651.90 hectares. The planned population size is 60,000.</p> <p>The project enjoys a beautiful environment, extending around Fengyuhu Lake, with ecological wetland in the south side and completed urban area at the north side. The completed urban area is divided into four sections, and the central section around water body is the downtown equipped with commercial and office facilities, in addition to three residential sections at the east, middle and west areas respectively.</p> <p>It is proposed to be a compound wetland park community with ecological conservation , urban vigor and green industrial cluster devoted to developing urban ecological and cultural tourism as well as international sports leisure, and the demonstration area of “Two-Type Society” to explore local citizenization of rural residents around the main city.</p> <p>It is proposed to introduce strategic partners with strong strength and rich experience in the overall development of large district.</p>	Sole-venture, Joint-venture, Cooperation	5000000	<p>1. Invite the world first-class international company, Australian GHD to compile and complete the detailed planning of the lake construction, US Jones Lang LaSalle to make the regional overall planning of the lake construction and projects around the lake, and US Steinberg Architects to work out the control planning of the eastern section around the lake.</p> <p>2. The main road, branch roads around the lake and Southern Garden of Songya Lake Ecological Park have been completed and put into use.</p> <p>3. The 13 municipal roads in Songya New City are under construction. The early work of schools, hospitals and related public facilities has been started.</p>	Commerce and Tourism Bureau of Kaifu District	<p>Bi Deng +86-731-84377671 18774983894</p>

12	Songya Lake International Ecological New Town Construction Project in Changsha County	<p>Songya Lake International Ecological New Town is located in the central urban area in accordance with <i>The Overall Urban Planning of Changsha City (2003-2020)</i>. The planning area is 16.97 square kilometers, consisting of two sections of Songya Lake Ecological Park and Songya New City. Relying on the Songya Lake National Wetland Park to construct, it is proposed to build an ecological, humanistic and international livable new lake city, which integrates shopping, leisure, tourism, food, entertainment, fitness and water activities. Songya Lake Ecological Park covers an area of 7,345 mu, of which nearly 4,000 mu is water. The total investment is RMB 5 billion Yuan. Taking Songya Lake as the center, it is to form the 8 urban-functional groups such as the “Left Bank Fragrant Dyke” enterprise clubhouse, “Amusement Port” shopping and leisure area along the lake, and build a comprehensive park with the functions of leisure, tourism, entertainment, fitness and water activities. Songya New City is located at the east of Songya Lake Ecological Park, covering an area of 7,035 mu. It is positioned as a new city with four functions: Office building, residence, hotel and retail. Its focus is on developing the shopping and leisure area project of the amusement port (170 mu).</p> <p>We sincerely invite domestic and overseas large-scale urban complex development companies, major theme park development companies, ecological hotels development, operation, and management companies as well as other investors or operators with great economic strength, reliable reputation and high popularity to invest.</p>	Cooperation, Sole-venture	200000	<p>1. Invite the world first-class international company, Australian GHD to compile and complete the detailed planning of the lake construction, US Jones Lang LaSalle to make the regional overall planning of the lake construction and projects around the lake, and US Steinberg Architects to work out the control planning of the eastern section around the lake.</p> <p>2. The main road, branch roads around the lake and Southern Garden of Songya Lake Ecological Park have been completed and put into use.</p> <p>3. The 13 municipal roads in Songya New City are under construction. The early work of schools, hospitals and related public facilities has been started.</p>	Changsha Songya Lake Administrative Bureau	Liu Na +86-731-84091876
----	---	---	---------------------------	--------	--	--	----------------------------

13	Changxing Lake International Ecological New Town in Liuyang City	<p>Changxin Lake area is located in the northeast of Liuyang City, adjacent to the administrative center of the city, extending to Liuyang Avenue in the west, the foot of Wangfu Mount in the north, and encircled by the Liuyang River in the east and south.</p> <p>The total planning area of the project is 8 square kilometers, among which the net plot area is 7,418.1 mu; the area available for development and sale is 2608.6 mu, the water area is 1,200 mu, and the planning population is 86,800. At present, 7 plots of land has been invested in the market, with a total area of 527.6 mu. It is proposed to build Liuyang Eco Waterfront New Town to become the landmark city parlor of Liuyang. The floor area ratio differs from 1.2 to 5.0.</p> <p>Key projects: International waterfront resort hotel, yacht club, small town with folk customs, large water show and performing arts, garden house, wetland park, etc.</p>	<p>Overall strategic cooperation</p> <p>Investment attraction by land lot, etc.</p>	1000000	<p>1. The regulatory detailed planning of Changxing Lake Eco Waterfront New Town, and the landscape planning of waterfront gardens have been worked out.</p> <p>2. In 2014, Changxin Lake was officially closed to store water, and its storage capacity was 2,100,000 cubic meters.</p> <p>3. In 2015, the urban complex Liuyang Olympic Garden Plaza and the high-end residential community Yintian Changxin Lake No.1 settled in the section, and now they are under construction.</p> <p>4. Land expropriation with a total of 4,143.4 mu through agreements has been finished, and nearly 226 households signed the housing demolition agreement. The expropriation and demolition task of the Phase I of land use was basically completed.</p>	Liuyang Water Conservancy Construction Investment Co., Ltd.	<p>Sun Chunyan</p> <p>+86-731-83618031</p>
14	Jinyang Industrial New Town in Liuyang Economic & Technical Development Zone	<p>The project has Kangping Road in the south, Beisheng Road in the north, Keli River and Dongyang Road in the west, and a part of the Juhua Reservoir in the east. The total investment is RMB 10 billion Yuan. It is divided into three phases to develop and the land for Phase I is about 43 hectares. The total area of the project is about 1,300,000 square meters and the total building area of Phase I is about 355,000 square meters.</p> <p>The project format is divided into four main areas: The factory building area (standard factory building and comprehensive factory building), residential business area (residence, apartment, business and commercial office), vocational education city, and social public supporting service area (Keli Primary School, hospital, sports center and park).</p>	<p>Sole-venture, Joint-venture, Cooperation, Other</p>	1000000	Planning and site selection completed.	Hunan Jinyang Investment Group Co., Ltd.	<p>He Kun</p> <p>13755093512</p>

15	Langli Section Development and Urban Renewal Project in Changsha Economic & Technical Development Zone	The project scope extends to the East Sixth Line in the east, Huangxing Avenue in the west, Dayuan Road in the south, and the airport expressway in the north. It is proposed to introduce the advanced urban operators in China to use the advanced concepts of urban development to carry out planning and positioning, regulation adjustment and urban design, shantytown transformation, water pollution comprehensive treatment, infrastructure construction, public facilities construction, commercial and residential real estate development of this section.	Sole-venture, Joint-venture, Cooperation, Other	770000	The project is in the early stage of research.	Changsha Economic and Technical Development Group Co., Ltd.	Yao Tao 13723899878
16	Changsha Economic & Technical Development Zone Shaoguang Community & Area Development Project	The project is located at the north of Renmin East Road, the east of the East Fourth Line, the west of the East Sixth Line, and the exit of Metro Line Six. It is proposed to introduce the advanced urban operators in China to use the advanced concepts of urban development to carry out land expropriation and demolition, land arrangement, positioning planning, industry introduction, urban operation, etc. of this section.	Sole-venture, Joint-venture, Cooperation, Other	500000	The project is under conceptual planning and positioning.	Changsha Economic and Technical Development Group Co., Ltd.	Yao Tao 13723899878

17	Liuyang Daowu New Town Life Center Construction Project	The life section of Liuyang Daowu New Town Life Center extends to Liuyang Avenue in the east, Huapao Avenue (G319) in the south, Daowu Mountain in the west, and the east extension line of Kaiyuan Road (under planning) in the north, with the total area of about 25 square kilometers, of which the construction land is about 18 square kilometers. It is the life center of Liuyang in future. In the area, there are the northwest loop line of 9.3 km, the first city fast track in Liuyang, Daowu Road of 3.8 km, the urban main road, and Liuyang Planning Exhibition Hall, museum, library, people's hospital and Daowu School under construction. Taking "creating a famous characteristic city" as the vision, and introducing the concepts of "ecology + commerce finance, healthcare convalescence, cultural leisure, science and education training", it is proposed to develop into a modernized new area with the gathering of business, tourism, residence and industry, the integration of mountain and city, the ecological superiority, the integration of industry and city, the completion of supporting facilities, and suitable for business, live and tour.	Sole-venture, Joint-venture, Cooperation	580000	The regulatory detailed planning of the new town section is being planned and designed. The core area of Daowu New Town is 6.8 square kilometers; within the section, the main road network has been pulled through, with a total length of 9.26 km. The northwestern loop line with the total investment of 940 million Yuan and the urban main road Daowu Road with the total investment of 460 million Yuan have been opened to traffic. The new relocation site of the People's Hospital has been selected, and the demolition work has been completed. It will start construction in early February. The key planning projects such as the construction of Daowu School, Urban Planning Museum, Liaoyuan Park, New Villa Park, etc. are proceeding orderly.	Liuyang Urban Construction & Investment Co., Ltd.	Chen Lihui 13755156678
18	Liuyang Shuijia Lake Ecological New Town Construction Project	The project is located in the "dual center" zone of Liuyang administrative center and Changxing Lake New Town Center, in the east of Fuxing Road, the south of Baisha Road, the west of Qiushou Road, and the north of Liuyanghe Road, with the area available for sale of about 640 mu. It belongs to the new town area that the government focuses on in recent years and future and is an important constituent part of the scenery belt along the Liuyang River. Relying on the rich ecological landscape scenery, it is proposed to reserve the green environment along both of the riverbanks, plan the modern business gathering area, financial business area, cultural service area, waterfront ecological leisure area and other functional areas, construct a business service highland and financial center, create a landmark commercial center of the new city, and build a livable new town with fashionable entertainment, theme catering and waterfront leisure.	Sole-venture, Joint-venture	500000	The development of the surrounding area has been mature. Changxin Lake water of 1,200 mu and Fenghuangshan Park of 500 mu have been built and put into use. The land expropriation of the right side of Tai'an Road has all been finished, and that of the southern part of the left side has been mostly finished, while the demolition of other blocks is being carried out synchronously.	Liuyang Urban Construction & Investment Co., Ltd.	Chen Lihui 13755156678

2. Development Projects of Urban-Rural Integration Pilot Towns (4 Projects)

19	“Lotus Valley” Potpourri Town Development & Construction Project in Yuelu District	<p>The project is located at Lotus Modern Agricultural Park, Lotus Township, Yuelu District. Lotus Township is located in the southwest of Yuelu District, Changsha City, in the core area of Xiangjiang New Area, and it is one of the most important areas in the Changsha-Zhuzhou-Xiangtan Urban Cluster. Now over 20 modern agricultural industries projects of proper scale have been introduced into the park. The land circulation scale reaches 20,000mu. Senlan Technology, Tian-Quan Ecological Grass Engineering, Nanzhou Lake, Enough Group, Shengfeng Fruit and Goodtaste have been stationed in Lianhua. The project mainly includes the construction of three blocks: 1. Hunan culture and humane exhibition block; 2. picturesque rural village and folk experience block; 3. sightseeing and retirement holiday resort.</p> <p>We now sincerely invite domestic large-scale tourist comprehensive development and operation companies to investment on the project through joint venture, financing, stockholding, and sole-venture.</p>	Cooperation, Joint-venture, Financing, Stock system, Sole- venture,	50000	Related plans haven been drafted; part of infrastructure construction has been completed; some leisure and holiday facilities within the park haved been improved; and beautiful rural trip demonstrating group in Tongmu section has been created.	<p>The People's Government of Lotus Town,Yuelu District</p> <p>Commerce Bureau of Yuelu District</p>	<p>Li Jiancheng 136074418 27</p> <p>Lin Yuan 152111247 09</p>
20	Development & Construction Project of Hot Spring New Town, Lukou Town, Changsha County	<p>The project is located at the junction of the north extension line of Luqing Road and Huangxing Avenue, Lukou Town, Changsha County, and its construction is divided into infrastructure supportings and 7 functional sections. Infrastructure supportings: the planned control area is 6.3 square meters, which are divided into 8 sub-projects for municipal infrastructure construction. The project is to be implemented according to the principle of overall planning and development in phases. The concrete construction plan is as follows: Phase I engineering: 2 sub-projects, namely Hot Spring Avenue and Jinghua Road; Phase II engineering: 6 sub-projects, namely, Luqing Avenue, Lukou Avenue, Chuangye Avenue, Dashanchong Road, Malin Community Centralized Settlement (including open fair), and Malin fair and countryside Quality and Capacity Expansion. 7 functional sections: hot spring tourism and leisure resort, healthcare & retirement area, integrated administrative business area, Malin ancient town sightseeing area, science and education & creative culture area, supporting industrial park, strategic new industrial area.</p> <p>We sincerely invite investors with needs in hot spring resort, sightseeing & traveling, sports & leisure, health & retirement, scientific research & education, culture & creativity, agricultural products processing, warehousing & logistics, headquarters economy, and so on for consultations and investment.</p>	Cooperation, Joint-venture, Sole-venture,	1087000	2015 revision work of land use planning, industrial planning, and overall town planning (2010-2030) has been completed and approved by municipal people's government. For development of Phase I, the land planning adjustment, hazard assessment of geological disaster, inquiry for covered minerals in construction zone, and land development demonstration report have been completed. In this area, 175mu of industrial construction land has been approved, and 423 mu of land for Hot Spring Project Phase I development has been reported to provincial department of land and resources.	<p>The People's Government of Lukou Town,Changsha County</p>	<p>Mr. Liu 139749970 66</p>

21	Development and Construction Project of Health-Preservation Tourism in Huitang Town, Ningxiang City Characteristic Town	The project is located at the opposite side of the International Exchange Center of Hunan University, Ningnan Village, Huitang Town, Ningxiang City, with the extension line of Jintang Highway direct to Changsha-Shaoyang-Loudi Expressway passing through. On the basis of the Huitang hot spring resources in the town, relying on the good rural environment, combined with health maintenance of traditional Chinese medicine, the project is proposed to create a comprehensive town that integrates medical treatment, cosmetology and body beautification, and health care for the elderly with the theme of “health-preservation”. We sincerely invite developers who have experience and strength in building a characteristic health-preservation town.	Sole-venture, Joint-venture, Cooperation	400000	It is under planning; demolition has not started yet; and road, water, electricity and other infrastructures have been perfected.	The People's Government of Huitang Town, Ningxiang County Changsha Huitang Hot Spring Construction & Investment Co., Ltd.	Gu Xiang 18874133917 Chen Xiaoqiong 15974227733
22	Characteristic Town Development and Construction Project in Huaminglou, Ningxiang City	The project is located in Huaminglou Town, Ningxiang City, the junction of Ningxiang, Shaoshan and Yuelu District, with convenient transportation and obvious location advantages. The planned area of the project is 3 square kilometers. It highlights the advantages of the red tourist resources of "hometown of the great man" in Huaminglou, and focuses on the development of the local ecological leisure culture to create a regional tourist town with special features. We sincerely invite developers who have experience and strength in building a characteristic town.	Sole-venture, Joint-venture, Cooperation	300000	The declaration work of the national characteristic town has been completed, and the project is being planned. Basic work, such as lighting, greening and so on, has been completed. Road network, sewage disposal and other infrastructures have been perfected.	Investment Attraction Service Center of Ningxiang City The People's Government of Huaminglou Town, Ningxiang City	Deng Zhenhua 15874800021 Yang Wangwei 13755080015
II. Infrastructure and Environmental Management Projects (2 Projects)							

23	Lakeside Area Construction Project of Langli Sub-district, Changsha County	<p>The project is located at Langli Sub-district, Changsha County, with a total area of about 165 hectares. Its construction is based on the natural waterscape elements of Liuyang River and its basin and the architectural elements of the Wei and Jin Dynasties in the Taogong Temple, and it takes “the most primitive, most natural and most harmonious” development concept, combs the texture of the water grain, restores the traditional characteristics of the folk commerce and carries forward the Huxiang folk custom with the aid of the Taogong Temple to realize the collision and blending of the culture. On the basis of remodeling “the eight scenic spots of the Lijiang River”, the elements of slow music, leisure, health preservation and ecological residence conforming to the aesthetics of the times are integrated in to create a business sub center serving the industrial development in the Economic & Technical Development Zone. The main contents of the project are the storage lakes and construction projects around the lakes. 1. The constuction of storage lakes; 2. Construction projects around the lakes, including: The two storage lakes Lijiang Port and Shuangqiao, interval roads and other infrastructures, public service supporting, Liuyang River scenery belt construction and many other sub-projects. The project is divided into three stages. The first stage is the construction around the lake of Lijiang Port; the second stage is the construction of the central part and the eastern area of northern part, and the third stage is the construction of the western area of the northern part.</p> <p>We sincerely invite the investors having relevant business development qualification, complying with national policies and having rich operation experience in similar projects to invest.</p>	Joint-venture, Cooperation	200000	Project planning and regulatory plan, and detailed construction plan of some sub-projects have been completed; water environment integrated improvement has completed the anti-flood wall and landscape works of Liuyang River and high drainage canal construction of Lijiang Port; the pump station and gate of Lijiang Port, and sewage interception works of Shuangqiao Port are starting the bid invitation, and waiting for commencement.	Langli Urban Construction Development Co., Ltd. of Changsha County	Mr. Peng +86-731-86806156
24	Ningxiang Agricultural Waste Comprehensive Cyclic Utilization Center Project	<p>The project is located at Ningxiang Jinyu Industrial Concentration District. It is proposed to focus on building a national center for comprehensive utilization of livestock and poultry manure taking livestock and poultry dung as the raw materials and realizing the comprehensive utilization of natural gas, and a national straw biomass cyclic utilization center using straw as the raw material and realizing the high value and energy of biomass.</p> <p>We sincerely invite enterprises and projects related to the comprehensive utilization of agricultural wastes to settle in.</p>	Sole-venture, Joint-venture, Cooperation	40000	The first-phase preparation of the project is being started. The area has realized “Seven Availables and Site Leveling”, and the infrastructures around have been perfected.	Investment Attraction Service Center of Ningxiang City Ningxiang Modern Agriculture Industrial Park	Deng Zhenhua 15874800021 Chen Jing 15111073533

III. Agriculture Industrialization Projects (8 Projects)

25	Ningxiang Economic & Technical Development Zone Changsha Jinghua Lake Urban Sightseeing Agricultural Park (Green Small Town) Project	<p>The project is located at Ningxiang Agricultural Science Park, close to the downtown of Ningxiang City and in the interface of Yiyang City and Changsha City. Now those two cities are directly connected with each other through the intercity artery—Jinzhou West Line. The planned area reaches 3.66 square kilometers, and the project is divided into eight functional zones, namely high-tech scientific exhibition area, efficient agricultural demonstration area, integrated service area, stylish town, DIY experience area, wetland amusement park, farm enjoying area, and eco-fruits cultivation area. The target is to create an National agricultural industrial sightseeing park that integrates ecology, science and technology as well as circulation.</p> <p>It is proposed to introduce the typical demonstration projects like modern farm, urban agriculture, sightseeing agriculture, leisure agriculture, and headquarters economy and strategic investors.</p>	Sole-venture, Joint-venture, Cooperation	100000	The project is included into land use planning of the park; the supporting facilities of road, water and power supply have been basically completed; the conceptual planning has been completed.	Administrative Committee of Ningxiang Economic & Technical Development Zone	Xie Xuxia +86-731-88980795 13787030105
26	Construction Project of the Agricultural Industrialization Base in Ningxiang Economic & Technical Development Zone	<p>The project is located in the villages and towns of Ningxiang. Relying on the advantages of the food and beverage industry in the park, Ningxiang City and the Economic & Technical Development Zone jointly support the construction of the production base of ten major types of raw materials, such as rice, vegetables, fruits, Chinese herbal medicines, oil-tea camellia, tea, spotted pig, cow herbage, poultry and precious aquatic products, etc. Reducing farmers' breeding risk by order production model and realizing the traceability of food enterprises products in the form of self built base, it is to realize the virtuous cycle of base construction for the service park, park enterprises supporting the base, and introducing characteristic agricultural products processing projects with characteristic agricultural products resources.</p> <p>It is proposed to introduce investors of characteristic agricultural industrialization base construction.</p>	Sole-venture, Joint-venture, Cooperation	100000	Now, the construction of Youzhuo Animal Husbandry Shuangjiangkou Base, Royal Dairy Meitanba Base, Huolala Yujia ' ao Base and Jinjian Quick-freezing Zifu Base has been completed. And the construction of more than 10 Agricultural Industrialization Bases is in the planning.	Administrative Committee of Ningxiang Economic & Technical Development Zone	Xie Xuxia +86-731-88980795 13787030105

27	Modern Agricultural Innovation Park Construction Project in Wangcheng District	The project is located at Wangcheng National Agricultural Science and Technology Park, Hunan, and is divided into three phases, including three areas: Modern agricultural research and development demonstration area, enterprise innovation area and college students entrepreneurial area. Among them, the modern agricultural research and development demonstration area mainly contains the construction of entrance flower exhibition area, comprehensive reception center, product exhibition center and agricultural science and technology information distribution center; the enterprise innovation area is mainly about the introduction and cultivation, variety and species display and planting technology demonstration and promotion of flowers, vegetables and aquatic products; the college students entrepreneurial area mainly provides a good development platform for college students to engage in agricultural science and technology entrepreneurship.	Sole-venture, Joint-venture, Cooperation, Financing, Technology investment	10000	The project planning design, feasibility study and establishment approval have been completed. 400mu Phase I construction has been started. The supporting facilities of water, power, road and canal are completed, and four agricultural projects with cultivation and promotion of specialty flowers as themes including Longzhao Hi-tech, Flowery Gardening, Vine Garden, and Qinlin Garden have been introduced. The target is to form a new brand and reputation demonstrating the urban leisure agriculture of Wangcheng.	Administrative Committee of Hunan Wangcheng National Agricultural Science Park	Hu Zhen 13687302377
28	Boat Shaped Bay Agricultural Headquarters Base Project in Wangcheng District	As the legend goes, a hundred years ago, there was no embankment along Xiang River. Water in the Boat Shaped Bay was very clear, especially in the Tang Dynasty, Ouyang Xun studied calligraphy here, leaving the inspirational story of the Brush Spring. The Boat Shaped Bay, with a typical southern hilly terrain, is close to Dingzi Town, the industrial new town of Changsha. The development and construction of the agricultural headquarters base is richly endowed by nature.	Sole-venture, Joint-venture	350000	Conceptual planning and design are in the process.	Changsha Modern Agriculture Comprehensive Coordinated Reform Experimental Zone	Xiao Zhuang 15116259752
29	Heimifeng Boutique Agricultural Base Project in Wangcheng District	The project planning is to build thousands mu of boutique fruit garden, Chinese medicine health town and rose valley comprehensive development industrial park, do a good job in the service of “fine-quality agriculture”, and through innovative products, carry out packaging and chain services to create excellent services for “fine-quality agriculture”, push forward the scale development of characteristic agriculture and “fine-quality agriculture”, and promote the transformation of traditional agriculture into modern agriculture.	Sole-venture, Cooperation	139733	The demolition work in the scope of Heimifeng Forest Park has been completed, and infrastructures, such as the roads in the park have been basically perfected. The existing fruit planting area is above 300 mu, and the rose planting area is more than 500 mu.	Changsha Modern Agriculture Comprehensive Coordinated Reform Experimental Zone	Xiao Zhuang 15116259752

30	Hunan Changsha Modern Agricultural Achievements Exhibition Area Project in Changsha County	<p>The project is located at Jindingshan Community, north of Chunhuaji Town, and adjacent to the National Hybrid Rice Comprehensive Test Base, Chunhua Health City and other projects, with the planning area of the main construction of 2,794.6 mu. The main constructions of the project are “one axis, one core, three corridors and seven areas” (namely, modern agricultural service complex, frontier display area, agricultural culture exhibition corridor area, three-dimensional agricultural ecological corridor area, seed source science and technology corridor area, agriculture, forestry, fishery and animal husbandry complex, agricultural expo center area, etc.). Mainly relying on the large pattern of Changsha modern agricultural demonstration area, and with the two drivings of “high efficiency agriculture + rural tourism”, it is to build an agricultural tourism complex with regional influence gathering the agricultural resources trading platform, modern agricultural certification platform, intelligent agricultural scientific research platform and agricultural tourism demonstration platform together. After the completion of the project, it is expected to attract millions of tourists to Changsha every year. According to the amplification effect of industrial agglomeration, tens of billions of output value will be stimulated and nearly 1,000 job opportunities will be created. Optimize the industrial structure, break through the single land profiting mode, bring a sustained growth in tax revenue for the region and become the upgrading engine of the regional economic development.</p> <p>We sincerely invite enterprises that have intentions of investment or settling in the park for exhibition to come around and negotiate.</p>	Cooperation, Joint-venture, Sole-venture	87500	<p>1. The required 115 mu land for construction of the project has been included in the new round of the overall planning and adjustment for land use of Chunhua Town.</p> <p>2. In July and September 2015, in the executive meeting of the county government and the meeting of the standing committee of the county Party committee, the PPP mode for construction was agreed to be adopted, and the implementation plan was also approved.</p> <p>3. In April 2014, Yutian Agriculture and 8 villagers' groups in Jinding Mountain Community, Chunhua Town, where the project was located, signed a land circulation contract, a total of 974.94 mu farmland and water ponds were circulated.</p>	Administrative Committee of Modern Agriculture Innovation Pilot Area of Changsha County	Rao Peiyuan 138748747 85
----	---	---	--	-------	---	---	-----------------------------------

31	Hunan (Changsha) Agricultural Product Deep Processing Park Project in Changsha County	<p>The project is located at the south of the intersection of Luqing Road and Dongba Road, Lukou Town, Changsha County, with a planned building area of 900mu, including 300mu of logistics land, and 600mu of Class A industrial land, and its construction period is 3 years (2016-2019). It is positioned as the high-standard ecology & technology based modern agricultural products processing park that integrates agricultural products processing, technical R&D, food safety testing & control, logistics & warehousing, and cold chain. The main construction contents of the project include: the ecological park area, property real estate, and sightseeing factory. It is proposed to introduce the social capital, perform the first-class and second-class linkage development, and take full advantages of local geography to improve various road networks, water supply, drainage, pollution discharge, electric power, and other infrastructure and supporting works; retain some mountains and water resources, combine the theme of agricultural products processing to build the excellent routes for industrial tourism to achieve the high integration of the first, the second and the third industries; complete many standard plants, offices, warehouses, and logistics once, develop it into a rural makerspace in supper big size, and build it into the first rural markerspace demonstration base in China.</p> <p>We sincerely invite strong investors both at home and abroad to jointly develop and construct the agricultural product deep processing industrial park in sole-venture or PPP mode.</p>	Sole-venture, PPP	100000	The approval of the project has been completed; the planning and site selection have been approved by the county magistrate's office meeting; the project conceptual planning has been completed; the regulatory detailed planning is being compiled; the project feasibility research units have been selected; the project investment attraction work has been started; the intentional social investors have been widely contacted; and several rounds of investment attraction negotiations have been launched; the PPP workflow has been started.	Administrative Committee of Modern Agriculture Innovation Pilot Area of Changsha County	Rao Peiyuan 13874874785
32	Hunan Cuisine Prefabricated Food Industrial Park Project in Liuyang City	The project is located in the healthy food industry area of the Resource-conserving and Environment-friendly Industrial Park, an area of the most abundant agricultural resource. The planning area of the project is 500 mu. For Liuyang steamed dishes are very suitable for prefabrication, it is proposed to plan and build Liuyang steamed dishes research center, raw material planting and breeding base, culture exhibition center, cold chain logistics distribution center of prefabricated food of Liuyang steamed dishes, etc.	Sole-venture	50000	The standard workshops of 60,000 square meters have been built for the food industry, and now more than 20 enterprises have settled in.	Liuyang Resource-conserving and Environment-friendly Industrial Park	Liu Yuqi 18711054588

IV. Strategic Emerging Industry Projects (76 Projects)

1. Engineering Machinery Industry Chain Projects (2 Projects)

33	Investment Invitation Project of Ningxiang Precision Manufacturing and Numerical Control Machine Tools Industrial Park	The project is located at Ningxiang Jinyu Industrial Concentration District, and it is proposed to introduce the key parts and system integration companies to settle in and form an industry cluster. Investment invitation objects: industries and enterprises of NC machine tools, aviation, ship building, automobile manufacturing, weapon manufacturing, power generation equipment manufacturing, metallurgical equipment manufacturing, engineering machinery manufacturing, mould manufacturing, and electronic information equipment manufacturing.	Cooperation, Joint-venture, Sole-venture	130000	Infrastructure and supporting facilities equipped, seven availables and site leveling completed. Some enterprises have started production.	Investment Attraction Service Center of Ningxiang City Ningxiang Jinyu Industrial Concentration District	Deng Zhenhua 15874800021 Chen Xiangying 13507486222
----	--	---	--	--------	--	---	--

34	Liuyang Hi-Tech Industrial Development Zone Remanufacturing Industry Demonstration Base Project	The project is located at the northwest area of Liuyang Hi-Tech Industrial Development Zone. It is proposed to introduce the high-tech remanufacturing enterprises in auto parts, engineering machinery, NC machine tools, and office equipment, as well as the public platforms of remanufacturing information center, inspection and identification, and industrial supporting.	Sole-venture	110000	The procedres of submission for approval of land for the project, preliminary land planning, and formulation of industrial planning completed.	Investment Promotion Bureau of Liuyang Hi-Tech Industrial Development Zone	Liu Chuanxue 15116230677
----	---	---	--------------	--------	--	--	-----------------------------

2. Auto Industry Chain Projects (4 Projects)

35	Changsha Economic & Technical Development Zone Key Auto Parts Production Project	Located at Changsha Economic & Technical Development Zone, the project is designed and constructed independently by the investor. We have planned the 400 mu of project construction land. Construction contents are testing workshop, accessories warehouse, finished products warehouse, battery production workshop, electric auto assembly workshop, motor controller and powertrain workshop, R&D building and office building, with a total building area of 138,000 square meters.	Sole-venture	100000	Land of the project planned, feasibility analysis completed.	Changsha Economic & Technical Development Zone	Dai Bowen +86-731-84011108
36	Changsha Economic & Technical Development Zone Driverless Vehicle Intelligent Industry Project	Domestic labor cost rises, so logistics workers will be badly needed in future, and large domestic logistics enterprises focus on developing the driverless vehicle-based delivery business. The driverless vehicle intelligent industry project is introduced, and the construction contents include the intelligent manufacturing industry base, R&D, test, operation and maintenance of intelligent driverless vehicles, personnel training, and data center management.	Sole-venture, Joint-venture, Cooperation, Other	1000000	Land and office area of the project planned.	Changsha Economic & Technical Development Zone	Dai Bowen +86-731-84011108
37	Liuyang New Energy-Fueled Auto Industrial Park Project	With a planning area of 8000mu, Liuyang Hi-Tech Industrial Development Zone focuses on building the two platforms of operation and supervision, and the 3 centers of exhibition, experience, and big data, based on development of new energy-fueled auto and relevant key parts. Adhering to the dual driven development mode of "cored by automobile and guided by electric drive, battery, and electronic control", the project strives to realize the annual production and sales volume of 200,000 vehicles, and develop into Hunan New Energy-fueled Auto Industrial Park well-known in China with an output of RMB 60 billion.	Sole-venture, Cooperation, Joint-venture, etc.	1000000	The procedures of submission for approval of land for the project and preliminary planning completed; first draft of concept planning passed the first round of review, and the formulation of park policy for new energy vehicles started.	Liuyang Hi-Tech Industrial Development Zone	Wang Chong 13487569011
38	Liuyang Hi-Tech Industrial Development Zone Core Auto Parts Manufacturing Park Project	It is proposed to introduce the projects of core auto parts, such as auto engine, transmission, and chassis assembly, etc. The project is independently designed and constructed by the investor, with construction contents of the raw material area, accessory area, machining area, cold working area, heat-treatment area, complete machine assembly and test area, high-level engine R&D center, transmission testing center, office building and other supporting works.	Sole-venture	200000	The procedures of submission for approval of land for the project, preliminary land planning, and formulation of industrial planning completed.	Investment Promotion Bureau of Liuyang Hi-Tech Industrial Development Zone	Liu Chuanxue 15116230677

3. Advanced Railway Transportation Equipment (including Magnetic Levitation) Industry Chain Projects (2 Projects)

39	Changsha National Hi-tech Industrial Development Zone Urban Rail Vehicle Industrial Park Project	With a total planned investment of RMB 5 billion, and based on the industrial base of the Hi-tech Industrial Development Zone in equipment manufacturing, new material, electronic information and other relevant fields, it will focus on introducing the powerful enterprises in manufacturing of urban rail complete vehicle, rail transit control system, power system, traction and steering system, and other relevant industries, cultivating a batch of enterprises with output exceeding RMB 1 billion, promoting the industrial agglomeration and rapid development of rail vehicle industries in the park, and gradually improving the construction of industry chain.	Sole-venture, Joint-venture, Cooperation	500000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Wu Yue +86-731-89755255
40	Changsha Economic & Technical Development Zone Maglev Equipment Industrial Park Project	Construction of magnetic levitation test line, and magnetic levitation equipment industrial park.	Sole-venture, Joint-venture, Cooperation, Other	1000000	Land of the project planned, feasibility analysis completed.	Changsha Economic & Technical Development Zone	Dai Bowen +86-731-84011108

4. New Energy Equipment Industry Chain Projects (4 Projects)

41	Changsha Economic & Technical Development Zone Changsha International New Energy R&D Center	The project is located at Changsha Economic & Technical Development Zone with a total planning area of 40mu. We sincerely invite the enterprises with technologies for design and analysis of complete electric vehicle, design of complete vehicle system, computer-aided analysis and simulation test, new energy power system, and power and control to invest.	Sole-venture	12000	Feasibility analysis completed.	Changsha Economic & Technical Development Zone	Dai Bowen +86-731-84011108
42	Ningxiang Economic & Technical Development Zone New Energy-Fueled Auto Industrial Park Project	The project is located at the north of Ningxiang Economic & Technical Development Zone Highway. It is proposed to draw support from Alliance of Sinogold New Energy Automotives Industry to introduce the new energy-fueled auto full industry chain project.	Sole-venture, Joint-venture, Cooperation	5000000	Preliminary planning completed; Zhongwei New Energy, Hezong New Materials, Litian New Energy, Melsen Power and other projects introduced; Sinogold New Energy Automotives to be settled down.	Administrative Committee of Ningxiang Economic & Technical Development Zone	Song Ronghua +86-731-88981777 13787214212

43	<p>Wangcheng Industrial Concentration District</p> <p>Hunan Intelligent Power Equipment Industrial Park Project</p>	<p>The project is located at the south of Xinggong Avenue, the west of Huangqiao Avenue, and the north of Jinxing West Road in Wangcheng Industrial Concentration District. It focuses on developing the nuclear power equipment, renewable energy equipment, and complete equipment for transmission and transformation. It gives dual attention to the supporting manufacturing industries of power equipment, such as the complete equipment for UHV power transmission and transformation, the complete equipment, key parts, and materials for smart grids. It will build R&D and manufacturing base of the diversified power supply equipment that is applied to coal, water, gas, nuclear and new energy, and renewable energy, as well as the production base of main products, such as the complete equipment for EHV AC transmission, and power transmission and transformation equipment for smart grids, green environmental-friendly efficient power transmission and transformation equipment, key equipment for nuclear island, 3 types of valves for supercritical coal power unit, circuit breaker for large-capacity generator, intelligent components for intelligent power transmission and transformation equipment, DC capacitor with metallic film, high temperature superconducting material, insulation material, and electrical alloy. It will build a complete high-end intelligent manufacturing industry chain for power equipment, ranging from raw materials, basic parts, and complete equipment to integrated supporting parts. It will develop into a well-known power equipment industrial innovation base in Hunan.</p> <p>Meanwhile, it will mainly introduce the power industry automation, electronic information product production, new panel display manufacturing, and high performance integrated circuit R&D and production enterprises, and secondly introduce the supporting enterprises of relevant electronic products to form the vertically upgraded whole industry chain and platform for the power industry integrated circuit, wireless communication, electrical equipment, and electronic products, provide technical and intellectual supports for Wangcheng Industrial Concentration District's new generation of IT industry development featured with power industry, and promote the cooperation and exchange between manufacturing enterprises of intelligent power equipment.</p> <p>It is proposed to introduce the leading domestic and foreign enterprises and supporting enterprises of nuclear power equipment, renewable energy equipment, complete equipment for smart grids, and key parts materials, as well as the production enterprises of electronic information product, sensing device, high-end integrated circuit, and new plane display to enter. It will focus on introducing the Japanese, South Korean, European and American enterprises, represented by GE, Siemens, Alstom, ABB, Schneider Electric, Mitsubishi Electric, Hyundai Heavy Industries, LS Industrial System, Shanghai Electric, Dongfang Electric, TBEA, Far East Holding, Hengtong Group, Delixi Group, and Goldwind, as well as excellent domestic R&D, manufacturing and supporting enterprises of electrical equipment to enter. The enterprises should self-sustain and self-manage.</p>	Sole-venture, Joint-venture	500000	Preliminary site selection and planning for the project completed basically; land acquisition and demolition for the project site selection underway.	<p>Wushan Sub-district, Wangcheng District, Changsha City</p> <p>Administrative Committee of Wangcheng Industrial Concentration District</p>	<p>Liu Zhuo</p> <p>13786188920</p> <p>+86-731-88405666</p>
----	---	---	--------------------------------	--------	---	--	--

44	Liuyang Hi-Tech Industrial Development Zone Special Project for New Energy-Fueled Auto Industry	It is proposed to introduce 2 special production projects of new energy-fueled vehicles, mainly including the special logistics vehicle and municipal vehicle, and new energy-fueled bus, as well as the production projects of key parts including lithium battery and motor, etc. It will also introduce 2 supporting projects of lithium battery and 4 production lines of power battery, 2 production projects of electric vehicle motor and electric control, including the production workshops and production lines with an annual output of 200,000 motors, and 250,000 sets of electric control. And it will introduce 1 large supporting testing center for electric vehicle, with the construction scale of 20,000 square meters.	Sole-venture	300000	The procedures of submission for approval of land for the project, preliminary land planning, and formulation of industrial planning completed.	Investment Promotion Bureau of Liuyang Hi-Tech Industrial Development Zone	Liu Chuanxue 15116230677
----	---	--	--------------	--------	---	--	-----------------------------

5. Additional Material Industry Chain Projects (1 Project)

45	Changsha National Hi-tech Industrial Development Zone Additional Material Manufacturing Industrial Park Project	With a total planned investment of RMB 5 billion, the project will mainly create 3 functional modules, including the additional material manufacturing R&D system and application system, and the platform service construction system of the industrial park, to develop it into the international first-class supply base of high-tech 3D printing equipment and materials, to drive the development of downstream industries of 3D printing, and derive the new industries, such as 3D scanner, outsourcing of drawing design, vertical field B2C, 3D printing bar, and new media, etc., and form the whole 3D printing industry chain cluster with complete and three-dimensional structure. The project will gather more than 50 enterprises and 10000 employees, and realize total output value exceeding RMB 5 billion.	Sole-venture, Joint-venture, Cooperation	500000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Zhang Yang +86-731-88995018
----	---	--	--	--------	--	--	--------------------------------

6. New Light Alloy Industry Chain Project (1 Project)

46	Wangcheng Economic & Technical Development Zone Light Alloy New Material Industrial Park	<p>The project is located in the north of Purui Road and east of Huangqiao Avenue, it plans to develop into the high performance light alloy materials production base that mainly meets the demands of domestic aerospace, nuclear power equipment manufacturing, rail transit, lightweight automobile manufacturing, and prefabricated building, as well as the R&D and achievement transformation base of Changsha high-end light alloy materials.</p> <p>We sincerely invite the R&D and production enterprises, and upstream and downstream enterprises of aluminum alloy, magnesium alloy, titanium alloy, and other high performance light alloy materials to enter.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	1000000	Land of the project planned, feasibility analysis completed.	Investment Promotion and Cooperation Bureau of Wangcheng Economic & Technical Development Zone	Liu Hu 13874935227
----	--	---	---	---------	--	--	-----------------------

7. Carbon-Based Material Industry Chain Projects (3 Projects)

47	Liuyang Hi-Tech Industrial Development Zone Carbon-based Material Industry Chain Investment Invitation Project	Located at the northeast section of Liuyang Hi-Tech Industrial Development Zone, the project is independently constructed by the investors, with the specific construction contents including upstream products, such as carbon fiber, carbon-fiber fabrics and preform, amorphous graphite and carbon-based material thermal equipment, etc.; midstream products, such as carbon, carbon airplane brake disc, carbon/carbon high temperature thermal components, biomedical carbon-based materials, high purity graphite, graphite anode materials, graphene and its emerging derived materials, etc.; downstream products, such as braking system for airplanes and high-speed trains, power battery, high-end mold, graphene new energy battery, sensor and super-capacitor, etc.	Sole-venture	200000	The procedures of submission for approval of land for the project, preliminary land planning, and formulation of industrial planning completed	Investment Promotion Bureau of Liuyang Hi-Tech Industrial Development Zone	Liu Chuanxue 15116230677
48	Hunan Coating Industrial Park Investment Invitation Project in Wangcheng District	Located at Tongguan Circular Economy Industrial Base of Wangcheng District, based on the existing industrial base, convenient and developed location and transportation, and the gradually improved infrastructure of the park, the project will focus on introducing the green and environmental-friendly coating industries of building and wooden furniture, automobile coating, mobile phone and electrical appliances coating, and will be developed into a high-end coating industrial park in Central South China and South China, . It will be constructed in 2 phases. In phase I, it will mainly arrange Xiangjiang Kansai Paint and its upstream supporting industrial park projects; in Phase II, it will mainly arrange for the other green and environmental-friendly coating industry project and its supporting R&D and service projects.	Sole-venture, Joint-venture, Cooperation	1200000	Investment Promotion Meeting for Hunan Coating Industrial Park was held on June 16, 2017, and it successfully attracted more than 50 well-known coating enterprises to visit the park. The project has attracted Xiangjiang Kansai Paint (with annual output of 180,000t of waterborne automotive coatings and 60,000t of resin), Three Ring Pigments (with annual output of 60,000t of ferric oxide), Xinyu Polymer (with annual output of 6000t of ultraviolet curing coatings), Tongyuan Building Materials (with annual output of 15,000t of waterproof coatings) and other excellent projects to enter the park.	Tongguan Circular Economy Industrial Base of Wangcheng District, Changsha City	She Zhenglong 13187314827

49	Investment Invitation Project of Ningxiang Xiaduopu Energy-saving and Environmental-friendly New Material Industrial Base	<p>Located at Ningxiang Xiaduopu Machinery Industrial Park, the project aims to achieve energy efficiency of building industry, and it focuses on the key fields, such as environmental-friendly non-metallic mineral functional materials, energy-saving, green, structural and functional integration building materials, new wall materials, thermal insulation materials, waterproof and sealing materials. It will focus on introducing the first-line brand enterprises of building and decoration materials to enter, and develop into the energy-saving and environmental-friendly new material industrial base with leading technology and complete range in the province.</p> <p>We sincerely invite the manufacturing enterprises of energy-saving and environmental-friendly materials to enter.</p>	Sole-venture, Joint-venture, Cooperation	70000	<p>1. Household survey completed, demolition and land leveling to be started.</p> <p>2. Signed the framework agreements with Hunan Huagong Construction Group, Hunan Gaoxin Construction Co., Ltd., Hunan Zhuji Building Materials Co., Ltd., and Hunan Chaoban Technology Co., Ltd.</p>	<p>Investment Attraction Service Center of Ningxiang City</p> <p>The People's Government of Xiaduo Town, Ningxiang County</p>	<p>Deng Zhenhua</p> <p>15874800021</p> <p>Zhou Jun</p> <p>13548605777</p>

8. Display Functional Material Industry Chain Project (1 Project)

50	Changsha Economic & Technical Development Zone Electronic Information Industrial Park Project	<p>Located at Changsha Economic & Technical Development Zone, the project plans to introduce the enterprises of wafer's upstream and downstream industries, and other types of electronic information industry. Construction includes areas of wafer production, display device, consumer electronics, electronic components, information equipment, special instruments and meters, and other hardware products. Such areas are independently designed and constructed by investor.</p>	Sole-venture	150000	Land of the project planned, feasibility analysis completed.	Changsha Economic & Technical Development Zone	<p>Dai Bowen</p> <p>+86-731-84011108</p>
----	---	--	--------------	--------	--	--	--

9. Advanced Hard Material Industry Chain Projects (3 Projects)

51	Wangcheng Economic & Technical Development Zone Advanced Hard Material Industrial Park	<p>The project plans to select the site at the north of Chigang Road and the east of Huangqiao Avenue; it will focus on developing the high-end ultra-fine grain and nano-grain hard alloy tools and structural materials applied in aerospace, electronic information, and military fields, the coarse grain hard alloy applied in high-toughness and wear-resisting roller, cold stamping, and mining fields, highly stable and safe hard alloy NC tool nano coating materials, and the superfine electroplate diamond wire suitable for solar-energy crystalline silicon and sapphire wafer cutting techniques.</p> <p>We sincerely invite the R&D and production enterprises of advanced hard materials to enter.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	1000000	Land of the project planned, feasibility analysis completed.	Investment Promotion and Cooperation Bureau of Wangcheng Economic & Technical Development Zone	Liu Hu 13874935227
52	Wangcheng Economic & Technical Development Zone Non-ferrous Metal New Material Industrial Park	<p>The project will build the core industrial area, commercial-residential complex area, and ecological leisure area. The core industrial area has gathered the industry leaders and high quality enterprises, such as China Minmetals Nonferrous Metals (Hunan), SNT0, CITIC Dicastal, Germany KSM, Golden Dragon Precise Copper Tube, Hengfei Cable, Xihu Wire and Cable, and Bichamp New Materials; the commercial-residential complex area has attracted Jinqiao International Commerce Mall, Global Outlets Shopping Park, SNT0 Business Center, Liancheng Huatian Hotel, and Purui Hotspring Hotel to settle in; Cree and Flower of the City, AVIC Landscape Blue Sky, Chanfine Group, and other quality buildings, as well as Shazitang Xin Shibo School, Zhounan Wangcheng School, and other supporting education can attract industrial workers to live and work here; the ecological leisure area has developed Maqiaohe Scenic Belt, Yuhu Eco-Theme Park and Renhe Wetland Park to provide the cozy living environment filled with town style and scenery for industrial workers.</p> <p>We sincerely invite domestic and foreign noted enterprises engaged in R&D and production of high-end wires and cables, environmental protection material, new material, and other fields, as well as excellent projects to enter.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	3000000	Project construction completed, and investment promotion underway.	Investment Promotion and Cooperation Bureau of Wangcheng Economic & Technical Development Zone	Liu Hu 13874935227

53	Wangcheng Economic & Technical Development Zone Minmetals Non-ferrous Technology Industrial Park	<p>Minmetals Non-ferrous Technology Industrial Park covers an area of 329mu, with planning and construction, project introduction, and operation management in the charge of Hunan Non-ferrous Central Research Institute Co., Ltd. under the large-scale central enterprise China Minmetals Corporation, and it is proposed to develop the professional non-ferrous metal clustered technology industrial park that integrates "nursery+ incubator+ accelerator+ industrial park". Minmetals Non-ferrous Makerspace and Nonferrous Rare Metal Public Service Platform are built in the park, and they can provide the settled enterprises with the services of venture-creation place, assistance in project managing, enterprise training, financing matching, network information, project application, project incubation, technology introduction, and professional inspection and testing. The project has completed 40 thousand square meters of standard plant, specialized plant, auxiliary production room, and innovation service building, and it has introduced 23 non-ferrous metal project innovation teams and newly established enterprises.</p> <p>We sincerely invite the relevant upstream and downstream small and medium-size technology projects to enter.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	300000	Project construction completed, and investment promotion underway.	Changsha Minmetals Non-ferrous Technology Industrial Park Co., Ltd.	Zou Shenlin 18163717399
----	--	---	---	--------	--	---	----------------------------

10. Advanced Energy Storage Material Industry Chain Project (1 Project)

54	Changsha National Hi-tech Industrial Development Zone Power Battery Industrial Park	The project will focus on integrating the resource advantages in production of power battery material, R&D and manufacturing of battery, management of battery pack, assembly of power system, charging of electric vehicle, and maintenance of power battery and etc., to cultivate a batch of industry leading enterprises, and create a power battery industrial park with perfect system.	Sole-venture, Joint-venture, Cooperation	1500000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Zhang Yang +86-731-88995018
----	---	---	--	---------	--	--	--------------------------------

11. Integrated Circuit Industry Chain Projects (3 Projects)

55	Changsha Economic & Technical Development Zone Integrated Circuit & Internet of Things Industrial Chain Project	<p>Located in Changsha Economic & Technical Development Zone, and jointly promoted by 6 integrated circuit experts returned from Silicon Valley, and Changsha Surpassing Robotization Co., Ltd., the project will integrate the strategic resources of Institute of Microelectronics of the Chinese Academy of Sciences, China R&D Center for Internet of Things, and the global NFC goods supply chain that has taken shape in China; successfully forge the R&D, design, manufacture, sales and application of Internet of Things, and the integrated circuit, with independent intellectual property and world class technology, with RFID chip as its core.</p> <p>We sincerely invite investors with certain strength to invest and realize industrialization.</p>	Sole-venture	10000	Land of the project planned, feasibility analysis completed.	Changsha Economic & Technical Development Zone	Dai Bowen +86-731-84011108
----	---	---	--------------	-------	--	--	-------------------------------

56	Changsha Economic & Technical Development Zone Wafer Project	Wafer is the carrier used for producing the integrated circuit. The integrated circuit is the core of electronic information industry, and wafer fabrication is the key link in the integrated circuit industry chain, so the wafer project is introduced with a planning area of 600mu.	Sole-venture, Joint-venture, Cooperation, Other	1500000	Land of the project planned, feasibility analysis completed.	Changsha Economic & Technical Development Zone	Dai Bowen +86-731-84011108
57	Wangcheng Economic and Technical Development Zone Liandong U Valley International Harbor Project	<p>The project is located at the intersection of Maqiaohe Road and Yangjiawan Road, Wangcheng Economic & Technical Development Zone, and it is developed in 2 phases by Beijing Liandong Investment Group. It provides enterprises with the multi-functional general standard plant, business garden individual office building, customized plant, and various living and commercial facilities. It is proposed to build the urban industry cluster that integrates production & manufacturing, R&D and design, pilot achievement transformation, corporate headquarters, product display, and productive service functions. After completion, it can hold 600 enterprises to settle in, and its annual output is predicted to reach above RMB 4 billion, and tax revenue is to reach above RMB 0.2 billion.</p> <p>We sincerely invite the SMEs and excellent projects in intelligent manufacturing, internet technology, e-commerce, medical device, new material, and other fields to enter.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	100000	Project construction completed, and investment promotion underway.	Changsha Liandong Jinyu Co., Ltd.	Tao Min 18670017958

12. Artificial Intelligence and Robot Industry Chain Projects (5 Projects)

58	Wangcheng Economic & Technical Development Zone Intelligent Manufacturing Industrial Park Project	<p>The project is located in the east of Huangqiao Avenue, the west of Changtang Road, the south of Wangjing Road, and the north of Jinxing Road, and its land is used as industrial land; its floor area ratio is 1.0-2.0; building density is 35—50%; ratio of green space is 10-15%, and building height is ≤50m. 6000mu of land is available for development; 3000mu of "cultivated land" with "seven availables and site leveling" has been reserved, and large quantities of high-quality enterprises have been introduced, including CITIC Dicastal, TDK, Shinco, MJ Intelligent System, and AVIC Landing Gear, etc.</p> <p>It focuses on introducing 10 Fortune Global 500 companies, listed enterprises, and industry leaders in intelligent manufacturing industry with an investment of over RMB 2 billion and output value of over RMB 5 billion, gives the industrial land with "seven availables and site leveling", and performs the bidding, auction, listing and transfer in land parcels.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	5000000	CITIC Dicastal, TDK, Shinco electronic projects introduced and put into production in Phase I, and investment promotion underway.	Investment Promotion and Cooperation Bureau of Wangcheng Economic & Technical Development Zone	Liu Hu 13874935227
----	---	---	---	---------	---	--	-----------------------

59	Intelligent Manufacturing Industrial Park Project in Liuyang City	Liuyang Hi-Tech Industrial Development Zone has planned over 400mu of land in the northeast area to build the intelligent manufacturing industrial park, drive the intelligent production, management and service, actively promote the industry to climb towards the international industrial division chain and value chain based on the intelligent product and intelligent manufacturing mode with technological content and competitiveness, realize the transformation from manufacturing to intelligent manufacturing, and create the China's first-class application research center and intelligent manufacturing platform.	Sole-venture, Cooperation, Joint-venture, etc.	1000000	Procedures of submission for approval of the land and preliminary industrial planning completed for all land parcels, part of enterprises introduced and projects approved.	Liuyang Hi-Tech Industrial Development Zone	Wang Chong 13487569011
60	Ningxiang Robot Town Project	<p>The project is located in the south urban area of Ningxiang, to the east of Yanhu Road, and the west of Binjiang Avenue. It will construct the Robot Industry Cluster, and focus on constructing the projects, such as intelligent equipment, industrial robot, and service robot, etc. The Robot Town plans to establish the Robot Exhibition and Trade Center, "Thousand Talents Plan" Changsha-Zhuzhou-Xiangtan Innovation Service Center, Robot Industry Manufacturing Base, Robot Industry Institute, Robot Characteristic Supermarket, and other characteristic blocks. It will focus on building the robot industry chain that is cored with the "Professional Robot System, Robot Flexible Automatic Production Line, and Intelligent Cloud Factory". It plans to develop the China's first-class robot town with industry, culture, tourism, and community functions, through 3 years of efforts. The floor area ratio is no more than 2.4, the greening rate is no less than 30%, and the building density is no more than 30%.</p> <p>We sincerely invite the enterprises with certain characteristics, brand influence, and research capabilities, and the tourism enterprises or tourism estate developers with strong development capability and experience to enter.</p>	Sole-venture, Joint-venture, Cooperation	500000	Procedures of submission for approval of the land underway, and project preparation started.	<p>Investment Attraction Service Center of Ningxiang City</p> <p>Ningxiang Urban Construction & Investment Group Co., Ltd.</p>	<p>Deng Zhenhua 15874800021</p> <p>Tao Jianwen 13517474333</p>
61	Changsha National Hi-tech Industrial Development Zone Intelligent Manufacturing Industrial Park Project	Located at the Information Industry Park of Changsha National Hi-tech Industrial Development Zone, with a total planned investment of RMB 5 billion, the project will construct the intelligent manufacturing industrial cluster, led by the advanced intelligent mobility and intelligent digital terminal enterprises with advanced technology and independent intellectual property, as well as their supporting enterprises. After completion, the project is predicted to realize the annual sales revenue of RMB 15 billion.	Sole-venture, Joint-venture, Cooperation	500000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Wu Yue +86-731-89755255

62	Ningxiang Economic & Technical Development Zone Changsha Intelligent Terminal Industrial Park Project	<p>The project is located around the intersection of Xieyuan North Road and Lanyuegu Avenue, Ningxiang Economic & Technical Development Zone, and it is about 3.5km far from Ningxiang Railway Station, Jinzhou Avenue, or G5513 Changsha-Zhangjiajie Highway. It covers a total area of about 1 million m² (about 1500mu), and has a total building area of about 1.12 million m². It obtains the support from Changsha municipal committee and government, and it is listed in "Hunan Changsha Intelligent Terminal Industry Accepting and Transfer (Shenzhen) Office"; besides, it obtains the support from Shenzhen Intelligent Terminal Industry Alliance, which will introduce more than 50 enterprises to enter.</p> <p>It is proposed to introduce the domestic and foreign terminal industry projects.</p>	Sole-venture, Joint-venture, Cooperation	500000	Phase I completed, over 10 intelligent terminal enterprises introduced, such as Sanjing Mobile Phone and Chenghong Technology.	Administrative Committee of Ningxiang Economic & Technical Development Zone	Dai Jing 15802608025
----	---	---	--	--------	--	---	-------------------------

13. Independent & Controllable Information Security Industry Chain Projects (8 Projects)

63	Changsha National Hi-tech Industrial Development Zone Information Security Industry (Independent & Controllable) Demonstration Base Project	<p>The project is located at Information Industry Park of Changsha National Hi-tech Industrial Development Zone, with a total planned investment of RMB 2 billion, and it is proposed to build an Information Security Demonstration Base, mainly including the land resources for manufacturing enterprises, and the composite building that mainly contains R&D and service enterprises, and is independently planned and constructed by High-tech Industrial Development Zone.</p> <p>It will focus on introducing the high-quality enterprises, which are autonomous, controllable, and dependable in computing field from information security industry, mainly including the R&D of basic software and hardware, production of complete machine, security application, and information security service. Based on the strategic cooperation between Changsha National Hi-tech Industrial Development Zone and China Electronics, and relying on high-quality platforms of the national software base, Hunan Professional Electronic Information Industrial Park, operating system, and national engineering center, it will guide more key enterprises of information security industry, great achievements, major projects, and other superior resources to gather in Changsha National Hi-tech Industrial Development Zone, deepen industry chain collaboration, speed up and promote the industrial agglomeration and development, cultivate a batch of leading enterprises with core independent intellectual property, which are autonomous, controllable, and dependable in computing field, and create a national information security industrial base.</p>	Sole-venture, Joint-venture, Cooperation	200000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Wu Yue +86-731-89755255
64	Changsha National Hi-tech Industrial Development Zone Civil-Military Integration Industrial Park Project	Located at Information Industrial Park of Changsha National Hi-tech Industrial Development Zone, with a total planned investment of RMB 5 billion, the project plans to introduce about 30 civil-military integration industry projects, cultivate a batch of enterprises with value of output exceeding RMB 1 billion, to form the accumulation and rapid development of civil-military integration industry, and gradually improve the industry chain.	Sole-venture, Joint-venture, Cooperation	500000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Wu Yue +86-731-89755255

65	Changsha Economic & Technical Development Zone Civil-Military Integration & Entrepreneurship Base Project	The project plans to introduce the social capital for investment of Civil-Military Integration Innovation & Entrepreneurship Base, cover 50mu, and build the base, R&D center, and other offices.	Joint-venture, Cooperation	20000	Land and office area of the project planned.	Changsha Economic and Technical Development Group Co., Ltd.	Yao Tao 13723899878
66	Liuyang Economic & Technical Development Zone Changsha Civil-Military Integration Industrial Park	As required by national civil-military integration strategy, green and environmental protection, the project will build the civil-military integration industry chain that is cored with high-end intelligent equipment, electronic information, emerging materials, and emergency rescue, and develop into a smart park that integrates production, city, person, culture, and technology, and is suitable for civil-military integration makers to work and live.	Sole-venture		Conceptual completed. planning	Liuyang Economic & Technical Development Zone	Zhao Si 13574828442
67	Investment Invitation Project of Kaile Microvalley Civil-Military Integration Innovation and entrepreneurship Base in Kaifu District	<p>The project is located at the intersection of Douling Road and Qifeng Road in Kaifu District, with a total area of 44,214.82 square meters (about 66mu), its net land area is 29,670.76 square meters (about 44.5mu); the floor area ratio is 3.5, and the total building area is about 140,000 square meters, including 80,000 square meters of office buildings, 13,000 square meters commercial buildings, and 10,500 square meters of residential buildings. The project will depend on the geographical advantage of being close to National University of Defense Technology, integrate a dozen military industrial enterprises under Kaile Technology, focus on closed loop of big communication and big data industry, it will be guided by application technology institute of quantum communication industry, rely on relevant government policies and company's core resource advantages, and use a unique enterprise value-added service system to create a large civil-military integration innovation & entrepreneurship base in central China.</p> <p>We sincerely invite the enterprises engaged in the civil-military integration and internet industry.</p>	Sole-venture	72000	Under construction. Expected to be completed and delivered in 2018	Commerce and Tourism Bureau of Kaifu District Hunan Shengchang'an Real Estate Development Co., Ltd.	Bi Deng 18774983894 Jiang Tao 13755014377

68	Changsha Jinxia Civil-Military Integration Industrial Park Development Project	<p>The project is located at Shaping Section, Changsha Jinxia Economic Development Zone, to the east of Zhongqing Road, the west of Guangsheng Road, the north of Qingzhuhu Avenue, and the south of Qiantang Road, and it covers a total area of about 886mu in Phase I with an effective area of 648mu. Relying on the industry advantages of the park, it will build the modernized and multi-purpose civil-military integration industrial park that integrates technology, industry and trade.</p> <p>It will focus on introducing the communication navigation industry dominated by satellite application products, the ocean engineering industry dominated by supporting equipment of ships, the electronic information industry dominated by computer & network application, and the civil aerospace industry dominated by R&D of power system.</p>	Sole-venture	300000	<p>1. Current planning indexes: Class II industrial land (M2); floor area ratio ≤ 1.6, building density $\leq 38\%$, building height $\leq 24M$, ratio of green space $\geq 10\%$.</p> <p>2. Situation of uniform land acquisition and demolition: completed.</p> <p>3. Supporting situation: water, electricity, gas, road and supporting facilities completed basically.</p>	Changsha Jinxia Economic & Technical Development Zone	<p>Fan Zhen 13873122267</p> <p>Deng Yun 18874039898</p>
69	Ningxiang Economic & Technical Development Zone Intelligent Appliances (Furniture) Industrial Park Project	<p>The project is located to the west of Fazhan North Road, the south of Lanyuegu Road, Ningxiang Economic & Technical Development Zone, and in the intelligent appliances industrial park. Ningxiang Economic & Technical Development Zone is the only "Appliances Industrial Park" in Hunan, approved by the People's Government of Hunan Province.</p> <p>We sincerely invite the enterprises of environmental health appliances, represented by household medical equipment and water purifying equipment; white appliances, represented by commercial and household air-conditioner, refrigerator, and washing machine; kitchen appliances represented by air-source water heater, ventilator and cooker, to enter. In respect of appliance supporting, it will mainly cover the supporting processing area, innovation incubation area, and public platform area. We sincerely invite the enterprises of injection molding, plate work, and electronic device, as well as public service organizations and platforms to enter, such as R&D and design, inspection and certification, e-commerce, storage and logistics, appliance recycling and disassembly.</p>	Sole-venture, Joint-venture, Cooperation	500000	<p>1. Preliminary site selection planning has been completed;</p> <p>2. At the site selected for the project, water, electricity, road, communication, and other infrastructure and supporting constructions have been completed, with land acquisition and demolition underway;</p> <p>3. Good contacts with the Household Electrical Appliances Associations of Ningbo, Shunde, and Zhongshan established.</p> <p>4. Leading electric appliance enterprises introduced, such as Gree, Hisense, and Haier Wireless; the upstream supporting industry chain of injection molding, plate work, printing and packaging, and parts improved.</p>	Administrative Committee of Ningxiang Economic & Technical Development Zone	<p>Song Ronghua +86-731-88981777 13787214212</p>

70	Liuyang Economic & Technical Development Zone Electronic Information Industrial Park Project	The project plans to build the electronic information industry that develops and produces the electronic equipment, and various electronic elements, components, instruments, and meters. It will focus on introducing the production industry of broadcast & TV equipment, communication and navigation equipment, electronic computer, electronic components, electronic instruments and meters, and other special electronic equipment.	Sole-venture	200000	Regulatory detailed plan completed.	Liuyang Economic & Technical Development Zone	Wang Chuanbang 15200865976
----	--	--	--------------	--------	-------------------------------------	---	-------------------------------

14. Mobile Internet Industry Chain Projects (3 Projects)

71	Wangcheng Economic & Technical Development Zone Intelligent Terminal Mobile Phone Industrial Park	<p>The project is located at the east of Huangqiao Avenue, the west of Gaoyuan Road, the south of Wangjing Road, and the north of Jinxing Road, and it will mainly construct 40 million intelligent terminals, intelligent terminal power and network, and produce the medical products and consumer electronics.</p> <p>We sincerely invite the enterprises of mobile phone R&D and design, manufacturing, software development, and parts, and R&D and production enterprises of consumer electronics to enter.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	3000000	Land of the project planned, feasibility analysis completed.	Investment Promotion and Cooperation Bureau of Wangcheng Economic & Technical Development Zone	Liu Hu 13874935227
72	Liuyang Economic & Technical Development Zone Smart Phone, Tablet, and Accessory Production and R&D Base Construction	<p>Main construction contents of the project:</p> <ol style="list-style-type: none"> 1. Headquarter base: to attract enterprise headquarters, branch offices, R&D centers, and financial institutions in and out of the province. 2. Production base of high-end mobile phone: build the smartphone production base with annual output of 10 million sets, as well as R&D center, and sales distribution base. 3. Production base of tablets: build the smart tablet production base with annual output of 10 million sets, as well as R&D center, and sales distribution base. 4. Production base of high-end parts: manufacture the power source, backlight, earphone, headset, keypad, circuit board, new materials, and other main parts. 	Sole-venture	250000	Regulatory detailed plan completed. Lens Technology, FN-LINK Technology, and Hongtai New Materials entered.	Liuyang Economic & Technical Development Zone	Wang Chuanbang 13574815015

73	Wangcheng Economic & Technical Development Zone SZZT Electronics Changsha Cloud Valley Project	The project is constructed by the listed enterprise SZZT Electronics with an investment of RMB 5 billion; it will create the big data center that has the largest scale and highest grade in the province, leads the central China, and becomes the basic platform to promote the construction of "Smart Changsha, Data Changsha". With a total building area of 230,000 square meters in Phase I, the project has 4 telecommunication five-star data centers, 2 software R&D centers, 1 power center, 1 maintenance building, and 1 set of 110KV substation. Over 20000 racks and 1200G internet bandwidth are planned for the project, and they meet the operation demands of 260,000 servers. The project can provide the cloud storage, cloud computing, and cloud service for banks, enterprises, and institutions, the place for enterprises to enter, and the rack rent/sale and big data application solutions for electronic information enterprises.	Sub-project, Sole-venture, Joint-venture, Cooperation	500000	Phase I of the project completed, investment promotion of Phase I and construction of Phase II underway.	Changsha SZZT Electronics Co., Ltd.	Deng Jun 18922323086
----	--	--	---	--------	--	-------------------------------------	----------------------

15. Aerospace (Including Beidou) Industry Chain Projects (5 Projects)

74	Changsha National Hi-tech Industrial Development Zone Aerospace Industrial Park Project	The project is located at Advanced Manufacturing Industry Park of Changsha National Hi-tech Industrial Development Zone, with a total planned investment of RMB 5 billion. It is proposed to introduce 1 integrated enterprise for aviation industry and 5-10 supporting production and service enterprises for aviation industry, foster the enterprise cluster for aviation industry with annual output of over RMB 10 billion, and form the perfect industry matching and support.	Sole-venture, Joint-venture, Cooperation	500000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Wu Yue +86-731-89755255
75	Changsha National Hi-tech Industrial Development Zone Beidou Satellite Navigation Industrial Base Project	The project is located at Information Industry Park of Changsha National Hi-tech Industrial Development Zone, with a total planned investment of RMB 3 billion. The construction contents include: 1. Land resources mainly for manufacturing enterprises; 2. Composite building, mainly containing R&D, and service enterprises, independently planned and constructed by High-tech Industrial Development Zone; 3. Supporting public technological service platforms. We sincerely invite the high-quality enterprises engaged in R&D and production of chip, R&D of ground station equipment, manufacture of navigation terminal, construction and operation of public platform, and provision of navigation and value-added services.	Sole-venture, Joint-venture, Cooperation	300000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Wu Yue +86-731-89755255
76	Changsha Economic & Technical Development Zone Aircraft Parts Manufacturing Project	Aviation equipment manufacturing industry is one of the major development directions of current high-end equipment manufacturing industry, meanwhile the aerospace industry will develop into a specific form of Industry 4.0. The project is located in Changsha Economic & Technical Development Zone, and it is independently designed and constructed by investors, with construction contents of the general assembly workshop, spraying workshop, large parts warehouse, Logistics Center, painting workshop, office building, power workshop, and post-assembly workshop. It has a building area of 163,000 square meters.	Sole-venture, Joint-venture, Cooperation, Other	500000	Land of the project planned.	Changsha Economic & Technical Development Zone	Dai Bowen +86-731-84011108

77	Wangcheng Economic & Technical Development Zone Aerospace Industrial Park	<p>The project will construct the aerospace popular education area, core industrial area, and commercial-residential complex area, as well as a representative aerospace industrial system. The aerospace popular education area plans to build the aerospace experience museum, museum, and space park. The core industrial area has introduced large quantities of high-quality enterprises, such as AVIC Landing Gear, AECC Zhongchuan Transmission, Liebherr, and Aerospace Magnet & Magneto. The commercial-residential complex area has completed Landscape Blue Sky, Cree and Flower of the City, Zhounan Wangcheng School, and Shazitang Xin Shibo School.</p> <p>We sincerely invite the enterprises of light aircraft, aviation power, landing system, aircraft maintenance, satellite application, electronic navigation and communication, aviation parts, and internet of things to enter.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	1000000	Project construction completed, and investment promotion underway.	Investment Promotion and Cooperation Bureau of Wangcheng Economic & Technical Development Zone	Liu Hu 13874935227
78	Yuhua Economic Development Zone Aerospace Spare and Accessory Parts Intelligent Manufacturing Center Project	The cooperation area of the project extends to Guihua Road in the north, Guihua Road in the east, Shanghai-Kunming High-speed Railway in the west, and No.4 BYD Branch Road in the south. The land area for construction is about 850mu, and the development period is planned as 8 years. We sincerely invite the related enterprises to enter.	Cooperation	90	Relying on the CASC (China Aerospace Science and Technology Corporation) No. 13 Institute Project settled in the park, the project has carried out cooperation with CASC, CASC No.9 Institute to jointly plan the project industrial layout, and function block setting. Meanwhile, it has cooperated with multiple domestic intelligent manufacturing investment institutions to widely collect the project planning design proposal.	China Aerospace Science and Technology Corporation Famous domestic intelligent manufacturing & investment institutions	Tang Yinglin +86-731-85079666

16. Gene Technology Industry Chain Project (1 Project)

79	Gene Technology (Breeding Direction) Industry Cluster Project	<p>Main contents of project construction: (1) Create the international first-class modern gene detection industry chain, around prevention, management, diagnosis, and treatment demands of major diseases, such as genetic disease, tumor, cerebrovascular disease, and infectious disease; introduce and develop the national key leading enterprises by innovating and integrating the ploidy breeding, distant hybridization and chromosome engineering, combination mutagenesis and cell engineering, whole genome selection, gene editing, and other technologies, with the rice, wheat, corn, vegetable, and other main crops as the objects. (2) Build the National (Hunan) Gene Detection Technology Application Demonstration Center, National Engineering Research Center of Human Stem Cells, Ministry of Agriculture Key Laboratory for Southern Rice Germplasm Innovation and Molecular Breeding, Rice National Engineering Laboratory (Changsha), Hunan Engineering Laboratory for Disease and Insect Resistance Rice Breeding, and Hunan Key Laboratory for Crop Whole Genome Breeding. Establish and perfect the high-throughput, intelligent, and large-scale screening and testing (performance test) platform for rice, corns, wheat, and vegetables nationwide. (3) Extend around the industry chain, and encourage the excellent enterprises of gene technology instruments and parts outside the city to invest and establish factories in Changsha; encourage universities, research institutes, leading enterprises, and supporting enterprises to strengthen the technology R&D and introduction, solve the localization problem of core parts, improve the industry chain, and introduce a large number of enterprises from global seed industry Top 10 enterprises, domestic seed industry leading enterprises, and gene technology research institutes. (4) Introduce a batch of all-round talents in precision medicine, gene detection, biological information, chemical doubling and induction of haploid, transgenic characteristics integration and test, transgene confirmation and evaluation, gene editing, development, and application, and molecular breeding. (5) Further popularize and promote the gene detection, and other new health and people-benefit technologies, and give the government's livelihood projects first to local enterprises. Conduct the new breed and new technology exchange of gene technology industry chain breeding, and build the production and sales platform for midstream and downstream enterprises of gene technology.</p>	Sole-venture, Joint-venture, Cooperation	1000000	<p>1. Changsha Office of Gene Technology Industry Chain established, and detailed work plan formulated;</p> <p>2. The venture-creation platforms dominated by Furong Central Industrial Park, Changsha Modern Services Industrial Park, Jincha Technology Building, and the industry cluster platform with Longping Modern Industrial Park and Hunan Promotion Center of Agriculture Research Achievements as the carriers, established;</p> <p>3. Breeding Industry Technology Innovation Alliance established, and national rice molecular breeding platform completed;</p> <p>4. Leading enterprises introduced, such as Longping High-tech, Huazhi Rice Bio-tech, Jinjian Seed Industry, and Keyulong Seed Industry, etc.;</p> <p>5. A group of experts and high-tech talents in seed industry gathered, such as Yuan Longping, Yin Yulong, Guan Chunyun, Zou Xuexiao, and Zhang Jian, etc.</p>	Administrative Committee of Longping Hi-tech Park	<p>Liu Ke</p> <p>18673129222 +86-731-84638788</p>

17. Bio-pharmacy Industry Chain Projects (6 Projects)

80	Hunan Health Industrial Park Project in Changsha National Hi-tech Industrial Development Zone	With a total planned investment of RMB 20 billion, and based on the high-tech zone's solid foundation in medical industry, bio-pharmaceutical, and medical device, the project will focus on the new health industry with high technology contents in crossing field, introduce the leading enterprises and supporting projects in medical device, bio-pharmaceutical, high-end hospital, gene detection, cell therapy, health data cloud platform, wearable health equipment, and high-end health service, cultivate a batch of enterprises with output exceeding RMB 1 billion, promote the accumulation and rapid development of health industry, and gradually improve the construction of industry chain.	Sole-venture, Joint-venture, Cooperation	2000000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Wu Yue +86-731-89755255
81	Liuyang Economic & Technical Development Zone High-end Bio-pharmacy Park	Driven by the park's existing key enterprises, such as Er-Kang Pharmaceutical, Welman, Jiudian Pharmaceutical, Warrant Pharmaceutical, Dinuo Pharmaceutical, Spring 9 Department, Baiyuefeng, and Baicaotang, it will focus on promoting the development and industrialization of new products and process in chemical drugs, biologics, modern Chinese medicine, high-end excipients, medical device and equipment, and other fields, speed up improving the bio-pharmacy industry chain, and push the bio-pharmacy industry cluster to develop in depth and width: 1. Make the cause of chemical drugs bigger and stronger; 2. Optimize the development of modern Chinese medicine; 3. Cultivate and make the cause of biologics bigger; 4. Develop the medical device and equipment.	Joint-venture, Cooperation	250000	Regulatory completed. detailed plan	Liuyang Economic & Technical Development Zone	Lang Dingge 13607430509
82	Liuyang Economic & Technical Development Zone Medical Device Industrial Park	1. In the aspect of diagnostic equipment (device), speed up R&D, manufacturing technology development of digital and network diagnostic equipment, and develop the digital medical equipment for emergency treatments, diagnosis, and recovery of major diseases, such as malignant tumor, diabetes, cardiovascular disease, and wound. 2. In the aspect of IVD reagent, improve the technology development platform for nucleic acid, immuno diagnosis reagent, and biochip. Develop the new technologies, high-precision diagnosis reagents and blood screening reagents of fatal infectious diseases such as viral hepatitis, AIDS, tuberculosis, chronic metabolic diseases like diabetes, major genetic diseases, and prenatal diagnosis.	Sole-venture	100000	Regulatory completed. detailed plan	Liuyang Economic & Technical Development Zone	Wang Chuanbang 15200865976

83	Hunan Pharmaceutical Raw and Auxiliary Materials Industrial Park Investment Invitation Project in Wangcheng District	<p>Located at Tongguan Circular Economy Industrial Base, Wangcheng District, and depending on the superior location and transportation, gradually improved infrastructure, and existing bio-pharmacy industry basis, the project will focus on constructing the specialized and intensive characteristic pharmaceutical raw and auxiliary materials industrial park that is cored with modern pharmaceutical manufacturing, and integrates the R&D, incubation, production, logistics, and many other functions. The project crosses Tongguan and Dongcheng Towns with a spatial layout of "1 Belt and 3 Zones". 1 Belt: Around Huanglonghe Reservoir and Ecological Wetland Belt; 3 Zones: R&D Incubation Zone, Core Production Zone, and Supporting Service Zone.</p> <p>We sincerely invite the pharmaceutical intermediates, chemical bulk drugs, and other relevant enterprises inside and outside the province to enter.</p>	Sole-venture, Joint-venture, Cooperation	600000	Pharmaceutical Raw and Auxiliary Materials Industrial Park has been analyzed and demonstrated by Hunan Food and Drug Administration, and it has attracted Erkang Pharmaceutical, Tuoyang Pharmaceutical, Fangsheng Pharmaceutical, Warrant Pharmaceutical, Wugan Pharmaceutical, Huateng Pharmaceutical, and other excellent projects to enter the park.	Tongguan Circular Economy Industrial Base of Wangcheng District, Changsha City	She Zhenglong 131873148 27
84	Changsha Jinxia Pharmaceutical Circulation Industrial Park Development Project	<p>The project is located in Qingzhuhui section, Changsha Jinxia Economic Development Zone, to the south of Meishan Road, the north of Mawan Road, the east of Tianjing Road, and the west of Zhongqing Road, and it covers a total area of about 316mu and an effective area of about 261mu. It forms the industry cluster with surrounding pharmaceutical manufacturing enterprises. It plans to build the modern pharmaceutical circulation industrial base that integrates enterprise headquarters office, modern logistics service, product exhibition and transaction, and other functions.</p> <p>It attracts investment by land transfer and solely invested development. It will focus on introducing the Fortune Global 500, Industry Top 500, listed companies, and other pharmaceutical circulation industry leading enterprises.</p>	Sole-venture	100000	<p>1. Current planning indexes: logistics warehousing land (W1); floor area ratio ≤ 2.0, building density $\leq 50\%$, building height $\leq 24m$, ratio of green space $\geq 10\%$.</p> <p>2. Situation of uniform land acquisition and demolition: uniform land acquisition completed.</p> <p>3. Supporting situation: water, electricity, gas, road and supporting facilities completed basically.</p>	Changsha Jinxia Economic & Technical Development Zone	<p>Fan Zhen 138731222 67</p> <p>Deng Yun 188740398 98</p>
85	Ningxiang Economic & Technical Development Zone Women, the Pregnant, and Baby Health Care Products Industrial Park Project	<p>Located at National Ningxiang Economic & Technical Development Zone, the project will create the production base of women, the pregnant, and baby health care products with the largest influence nationwide and centralized brands, around the target of national demonstration base of hygiene products. It is predicted to introduce over 50 projects during the 13th Five-year Plan, with output exceeding RMB 20 billion, and the enterprises will realize over RMB 5 billion of net profit.</p> <p>It is proposed to focus on introducing the enterprises of paper diapers, health care products for the pregnant, infants and children, baby carriage and bed, complementary food, toys, early education products, hygienic article for women, manufacturers of industry's upstream and downstream supporting products, and the headquarters of retail enterprises of the products for the pregnant, infants and children.</p>	Sole-venture, Joint-venture, Cooperation	1000000	Planning and design completed, and enterprises introduced, such as Cosom Care, Sharoy, ComicsIsland, Yihongda, E-ber, Boyuan, Wuxin Non-woven Fabrics, and Xinxiang Environmental Adhesive.	Administrative Committee of Ningxiang Economic & Technical Development Zone	He Rongfang +86-731- 88981777 151111083 13

18. Food Industry Chain Projects (9 Projects)

86	Ningxiang Economic & Technical Development Zone Food and Drug Equipment Industrial Park Project	<p>The project is located to the north of Yongjia East Road in the National Ningxiang Economic & Technical Development Zone, and the east of Fazhan North Road. It will make use of the aggregation effect of industry leading enterprises, such as Truking Technology and Changsha Sunhon Machinery Co., Ltd to build the production base of pharmaceutical machinery, conveying machinery, full set of production line, folding carton, soft package, decorative material printing and processing equipment, container loader, stacking machine, aqueous solution, box and other pharmaceutical packaging, filling and printing equipment.</p> <p>We sincerely invite the domestic leading enterprises of food and drug, biological preparation packaging, printing, and their supporting enterprises to reside in.</p>	Sole-venture, Joint-venture, Cooperation	500000	<p>1. Preliminary location planning completed; At the selected site, water, electricity, road, communication, and other infrastructure and supporting constructions completed, land acquisition, demolition and leveling underway;</p> <p>3. Investment promotion fully launched, and contact with numerous industry leading enterprises established.</p>	Administrative Committee of Ningxiang Economic & Technical Development Zone	Song Ronghua +86-731-88981777 13787214212
87	Ningxiang Economic & Technical Development Zone (Hunan) Dairy Product Processing Demonstration Base Project	<p>Located at the core area of Food and Beverage Industrial Park of National Ningxiang Economic & Technical Development Zone, the project will rely on Huang Shi Dairy, Xiaoyangren Dairy, Jinjian Dairy, and other enterprises settled down in the park, to create Hunan Dairy Product Processing Demonstration Zone.</p> <p>It is proposed to introduce 5-8 high-quality leading enterprises, such as Yili, Monmilk, and Junlebao.</p>	Sole-venture, Joint-venture, Cooperation	50000	Project planning and design, land approval, and other formalities for preliminary work completed, with project land leveled and supporting facilities completed.	Administrative Committee of Ningxiang Economic & Technical Development Zone	Huang Can +86-731-88981777 13467611701
88	Ningxiang Economic & Technical Development Zone Food and Beverage Zone 4A Construction and Industrial Tourism Project	<p>Located at Food and Beverage Industrial Park of National Ningxiang Economic & Technical Development Zone, the project will rely on the facilities and process flow of the existing food industrial enterprises' plants, and the high-quality supporting facilities in the park to realize the perfect integration of nature and industry, build the first adolescent education base in Hunan Province, build and improve the public service platform for food, supplement the supporting facilities for industrial tourism services, integrate the surrounding resources, vigorously develop the food industrial tourism, and enhance the influence and appeal of building the safe food demonstration zone in the park, and the popularity and good reputation of enterprises in the park. By 2020, the park will officially operate food industrial tourism and it will receive more than 100,000 tourists yearly.</p> <p>It is proposed to introduce the enterprises with capital strength, experience and related qualifications, to invest in the form of PPP.</p>	PPP	50000	The project has been listed in "The 13th Five-year Plan" Safe Food Park Construction, and its general planning and implementation scheme have been made, construction was officially launched in 2015. Currently its top-layer design, general planning, demonstration of feasible plan, construction of visit channels for the project in progress, design of leisure facilities, land acquisition and demolition, and leveling have been completed.	Administrative Committee of Ningxiang Economic & Technical Development Zone	Huang Can +86-731-88981777 13467611701

89	Ningxiang Economic & Technical Development Zone Hunan Cuisine Industrial Park Project	<p>Located at National Ningxiang Economic & Technical Development Zone, the project has introduced "Xiangshang Commodity Trading Center" Changsha Operation Center Project, the only high-quality commodity operation center in Hunan; member units of Hunan Pepper Industry Association have settled down here, such as Changsha Honghui Food, Changsha Hongtai Food, Hunan Kuailemei Food, Changsha Dequn Food; the projects with characteristics of Hunan cooked food have settled down here, such as Changsha Qiwei Food, and Hunan Impression Lushan Modern Agriculture Project.</p> <p>It is proposed to introduce leading enterprises of Hunan Cuisine with strength to reside in.</p>	Sole-venture, Joint-venture, Cooperation	100000	Overall conceptual planning of the project, and supporting facilities have been completed, such as road, water, electricity, steam, and gas.	Administrative Committee of Ningxiang Economic & Technical Development Zone	Xie Xuxia +86-731-88980795 13787030105
90	Ningxiang Economic & Technical Development Zone Seasoning Industrial Park Project	<p>Located in the core area of food & beverage industry of Ningxiang Economic & Technical Development Zone, the project will rely on the platform resources and enterprises in the park, such as Jiajia Soy Sauce, Hunan Grain Group, and Hunan Association of Food Safety and Technology to construct the Seasoning Production Base, with 3-year construction period.</p> <p>It is proposed to introduce COFCO, Yehe Vinegar Industry, and other competitive seasoning enterprises to enter the park.</p>	Sole-venture, Joint-venture, Cooperation	80000	Project planning and design, land approval, and other formalities for preliminary work completed, project land leveled, and supporting facilities completed.	Administrative Committee of Ningxiang Economic & Technical Development Zone	Xie Xuxia +86-731-88980795 13787030105
91	Ningxiang Economic & Technical Development Zone (Hunan) Leisure Food Industrial Park Project	<p>Located in the core area of food & beverage industry of Ningxiang Economic & Technical Development Zone, the project will rely on the platforms such as "Xiangshang Commodity Trading Center", "Hunan Food Association", Hunan Association of Food Safety and Technology, and other platform resources to expand the market of Hunan special food, and gather the leisure food of each city of Hunan in the park.</p> <p>It is proposed to introduce 15-20 leisure food enterprises, such as Shuzhongqing Food, Huawen Food, and Locai Beef.</p>	Sole-venture, Joint-venture, Cooperation	120000	Project planning and design, land approval, and other formalities for preliminary work completed, project land leveled, and supporting facilities completed.	Administrative Committee of Ningxiang Economic & Technical Development Zone	Xie Xuxia +86-731-88980795 13787030105
92	Liuyang Economic & Technical Development Zone Changsha (International) Health Care Technology Industrial Park	<p>With a total planned investment of RMB 10 billion, the project will build the international health care technology industrial park, including "Health Food Industry Area", "Industry Supporting Area", "Trade & Exhibition Area", "Warehousing and Logistics Area", and "E-commerce Area", and it will try to introduce more than 30 international and domestic famous enterprises of healthy products, food, and cosmetics to enter after the park is put into production.</p>	Sole-venture	1000000	Regulatory detailed plan completed.	Liuyang Economic & Technical Development Zone	Wang Chuanbang 15200865976

93	Liuyang Economic & Technical Development Zone Healthy Food Production Base	<p>Healthy food industrial base is one of the new core areas to create the Health Industrial Park at a hundred billion level. More than 30 food and health product enterprises have entered the park, such as Master Kong, Yankershop Food, Resgreen, Jiudaowan, and Haoweiwu. The products involve over 300 varieties, such as convenience food, snack food, and healthy food. An annual taxation income of Yankershop Food has exceeded 50 million Yuan.</p> <p>It will mainly introduce the projects of mid and high-end green healthy food and the health food that meets national strategy for industrial development.</p>	Sole-venture	50000	All industrial supporting facilities in the park will be constructed according to a high standard, at a lower cost for enterprises in the park than the enterprises in Changsha and around. It has been built with two 110KV substations, one 220KV substation, 100,000t waterworks, and 80,000t sewage treatment plant, 150 steam tons/h of heat supply center, Zhongyou pipeline gas, and Zhongnan logistics. Associated industrial supporting facilities under construction include water supply second plant, combined heat and power generation, convention and exhibition center, and Hong Kong Duote Logistics.	Liuyang Economic & Technical Development Zone	Wang Chuanbang 15200865976
94	Wangcheng Economic & Technical Development Zone Green Food Industrial Park	<p>The project will build the core industrial area, warehousing and logistics area, life supporting area and exhibition & trade area. The core industrial area has introduced Want Want Group, Ausnutria, Biostime, New Hope Nanshan, Bright Dairy, ABInbev, COFCO Coca-Cola, Oubijia and other excellent enterprises, and it completed an output value of RMB 12 billion in 2016, and 85% of the local dairy products in Hunan are from Wangcheng; warehousing and logistics area has introduced Blogis, Hong Kong Quankang Logistics, KXTX and other excellent projects to enter; life supporting area has introduced the projects, such as Global Outlets Shopping Park, Easyhome, Morning Inn, Aohai Wangzhoufu, and Wushan Forest Park; the exhibition & trade area has introduced the projects, such as Jinqiao International Commerce Mall, Jinqiao Leather City, E-commerce Exhibition and Trade Platform for Agricultural Products.</p> <p>The project will focus on introducing the Fortune Global 500, listed companies, industry leading enterprises, and "China Time-honored" food processing enterprises, give the industrial land with "seven accesses and site leveling", and perform the bid, auction, listing and transfer in land parcels.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	1000000	Project construction completed, and many noted enterprises settled down for operation.	Investment Promotion and Cooperation Bureau of Wangcheng Economic & Technical Development Zone	Liu Hu 13874935227

19. Environmental Control Technology and Application Industry Chain Projects (5 Projects)

95	Changsha National Hi-tech Industrial Development Zone Environmental Protection Equipment Industrial Park Project	The project is located at Information Industrial Park of Changsha National Hi-tech Industrial Development Zone with the total planned investment fund of RMB3 billion Yuan and total planned land area of 170mu. It is proposed to focus on introducing the enterprises engaged in R&D, production and management of environmental protection equipments and products, including the enterprises with leading position in the fields, such as environmental sanitarian machinery, equipments for air and water pollution controls, solid waste disposal, water conservation, eco-environmental protection, clean production, and instruments, meters for environmental monitoring and analysis, vigorously develop the manufacturing projects, such as machinery manufacturing and mechatronics technology and product, and build an industrial park of environmental protection equipments with complete infrastructure.	Sole-venture, Joint-venture, Cooperation	300000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Zhang Yang +86-731-88995018
96	Changsha National Hi-tech Industrial Development Zone Environmental Service Industrial Park Project	The project is located in the Information Industry Park of Changsha National Hi-tech Industrial Development Zone, with total planned investment of RMB 3 billion and a total planning area of 100 mu, and it is proposed to focus on introducing the enterprises engaged in traditional industry's energy-saving technology and product, water pollution control, organic waste gas control, flue gas desulfurization, solid waste and soil pollution control, urban household garbage disposal, environmental monitoring instrument, environment-friendly drug and material, cultivate and support the enterprises of energy-saving contract energy management, energy saving and environmental consulting service, high-end new energy saving and environmental technology and product, and build an environmental service industrial park with complete infrastructure and industry chain.	Sole-venture, Joint-venture,	300000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Zhang Yang +86-731-88995018

97	Ningxiang Economic & Technical Development Zone Green Building Materials Industrial Base Project	<p>The project is located at Green Residence Building Material Industrial Park of National Ningxiang Economic & Technical Development Zone. It is proposed to focus on constructing a center, i.e. National Building Industrialization Technology Center, and cultivating two bases, i.e. National Building Industrialization Base and National Intelligent Residence Base, forming three clusters of whole industry chain, i.e. the industrial cluster from residential building material to construction and decoration, the industrial cluster from residential industrial R&D and design to integration and construction, the industrial cluster from construction of civil works to construction maintenance, and showing four characteristics, i.e. large brand influence, high technology content, complete product category and supporting industries.</p> <p>It is proposed to introduce the first-line brand enterprises of chemical pipe and fittings, new building materials, environmental coatings, thermal insulation materials, bathroom plumbing, integrated cupboard, windows and doors, and LED lamps in building material industry to reside in.</p>	Sole-venture, Joint-venture, Cooperation	500000	<p>1. Listed in the park's New Material Industry "The 13th Five-year Plan", project planning and design, land approval, and other formalities for preliminary work completed;</p> <p>2. Project land leveled partially, park's supporting facilities improved, such as water, electricity, roads, communication, network, wire, pollution discharge, pipeline gas, and steam.</p> <p>3. Macalline and other commercial projects introduced, the platform integrating sales, storage, distribution, and exhibition of residential building materials created</p>	Administrative Committee of Ningxiang Economic & Technical Development Zone	Zhou Li +86-731-88981777 18874735488
98	Wangcheng Economic & Technical Development Zone Yongwang Technology Industrial Park Project	<p>The project is invested, built, operated and managed by China Top 500 Enterprise, Dahan Group, and it is the only professional integrated park that provides the whole-process logistics service in Xiangjiang New Area. It covers an area of 151mu and a total building area of 228,000 square meters. It has 12 production workshops, 2 complex buildings, 1 logistics and distribution center, and 1 less-than-truckload logistics center for Phase I. It has introduced "Monkey King" Tea under Global Fortune 500, COFCO, and other famous enterprises. It is the industrial park that integrates production, warehousing, logistic distribution, office, dining, and lodging.</p> <p>We sincerely invite the green food enterprise, SMEs and excellent projects in intelligent manufacturing, internet technology, e-commerce, medical device, new material, and other fields to enter.</p>	Sub-project, Sole-venture, Joint-venture, Cooperation	300000	Project construction completed, and investment promotion underway.	Hunan Yongwang Real Estate Co., Ltd.	Yang Xia 1509078399

99	Beishan Industrial Park Project in Changshang County	<p>Aiming to promote the urbanization and industrialization of Beishan Town, integrate the township resources, enhance the economic strength, improve people's living conditions, and build a harmonious society in an all-round way, the project will construct the new industrial park of "Ecological Resource-economical and Environment-friendly Zone and Dynamic Wisdom Park" in Changsha. The Ecological Two-type Demonstration Zone will keep the original ecological pattern of the area, form the organically grown natural cluster context according to the road network planned this time, and create the "environmental-friendly" industrial demonstration city with beautiful landscape, the "resource conservation" industrial demonstration park of Changsha, and the efficient wisdom industrial park that integrates the efficient wisdom producer services and modern consumer services and mainly includes the functions of technology R&D, commercial office, tourist service, cultural creativity, and commercial finance.</p> <p>We sincerely invite the industries of engineering machinery, high-end manufacturing, electronic information, new energy, new materials, energy conservation and environmental protection, automobile and parts, and bio-pharmaceuticals to invest.</p>	Sole-venture	/	<p>1. Beishan Industrial Park has a long-term regulatory plan area of 3.5 square kilometers, Phase I covers an area of 605.96mu, and the land requisition and demolition for the first 155.87mu of Phase I have been arranged and fully funded. Several enterprises with interest in entering the park are under negotiation.</p> <p>2. Land use planning and adjustment for 605.96mu of Beishan Industrial Park approved, and the trunk road Jinshan Avenue completed and open to traffic. The first 155.87mu of this land parcel has finished the land surveying and delimitation, and the modification of constructive planning. Land approval procedures are underway, and land requisition and demolition conditions are mature basically.</p> <p>3. Beishan 110KV Substation has finished land requisition and demolition, and will be completed and put into production in 2018.</p>	The People's Government of Beishan Town, Changsha County	Zhou Wei 13974920855 86745059

20. Prefabricated Building Industry Chain Projects (4 Projects)

100	Changsha National Hi-tech Industrial Development Zone Green Residence Industrialization Project	Located at the New Material Industrial Park of Changsha National Hi-tech Industrial Development Zone, with a total planned investment of RMB 4 billion, the project will introduce the upstream and downstream enterprises of green residence industry chain, cultivate a batch of enterprises with output exceeding RMB 1 billion, and form the industrial cluster of green residence.	Sole-venture, Joint-venture, Cooperation	400000	Land of the project planned, feasibility analysis completed.	Investment Promotion Bureau of Changsha National Hi-tech Industrial Development Zone	Wu Yue +86-731-89755255
-----	---	---	--	--------	--	--	----------------------------

101	Changsha Jinxia Modern Building Demonstration Industrial Park Development Project	<p>The project is located at Shaping Section, Changsha Jinxia Economic Development Zone, to the south of Da'an Road, the north of Xiangjun Road, and the east of Guangsheng Road, and it covers a total area of about 508.82mu and an effective area of about 411.34mu. It will mainly build the modern building demonstration industrial park that integrates headquarters office, design, R&D, settlement, production, labor market, and product exhibition.</p> <p>It attracts investment by land transfer and solely invested development. It will focus on introducing the light steel structure, wooden structure system, and other prefabricated building industries or construction and erection leading enterprises to develop and construct the whole land or land parcels.</p>	Sole-venture	100000	<p>1. Current planning indexes: industrial land, floor area ratio ≤ 1.5, building density ≤ 38-45%, ratio of green space $\geq 10\%$, building height ≤ 24-30m.</p> <p>2. Situation of uniform land acquisition and demolition: uniform land acquisition completed.</p> <p>3. Supporting situation: water, electricity, gas, road and supporting facilities completed basically.</p>	Changsha Jinxia Economic & Technical Development Zone	<p>Fan Zhen 13873122267</p> <p>Li Hui 15116321011</p>
102	Ningxiang Economic & Technical Development Zone New Residence Industrial (Prefabricated Building) Base Project	<p>Located at National Ningxiang Economic & Technical Development Zone, the project mainly includes the R&D, design, production, manufacture, and management of building industrial products, and will construct the Sub-center of Building Materials Technology Center, and create the whole industry chain of green building. The project will be invested by three phases, and adopt the mode of development, construction, and land supply by phases.</p> <p>It is proposed to introduce the enterprises engaged in CSI intelligent wallboard, PK concrete precast parts, standard pipeline equipment, PE parts, light steel keel, floor heating system and other residential industry chain enterprises.</p>	Sole-venture, Joint-venture, Cooperation	1000000	<p>1. The project has been listed in "The 13th Five-year Plan", with project planning and design, land approval, and other formalities for preliminary work completed, project land partially leveled, and supporting facilities completed;</p> <p>2. Building material enterprises gathered, such as Broad Homes, China Construction Science & Technology, Meihao Intelligent Manufacturing, Qiancheng New Building Material, Biaolang Homes, Yitian Integration.</p>	Administrative Committee of Ningxiang Economic & Technical Development Zone	<p>Zhou Li +86-731-88981777 18874735488</p>
103	Liuyang Prefabricated Technological and Energy-saving Building Materials Project	<p>The project is located in the northeast of the park. The park will integrate the superior and innovative enterprise resources to carry out R&D, transformation, and promotion of prefabricated building key technologies, and provide the cooperative and win-win comprehensive public service platform for enterprises, research institutes, investment and financing organizations, consulting service organizations, and industry associations, etc. The construction contents mainly include the production workshop, comprehensive office building, and other main works.</p>	Sole-venture	100000	<p>Project planning has been completed. 11 prefabricated building material projects have been introduced, and each has an annual output of above RMB 300 million.</p>	Liuyang Resource-conserving and Environment-friendly Industrial Park	<p>Liu Yuqi 18711054588</p>

21. Inspection and Testing Industry Chain Projects (2 Projects)

104	Yuelu Science and Technology Industrial Park Liandong Changsha International Enterprise Harbor Project	<p>The project is located at No.32 Yulian Road, adjacent to Xueshi Road in the east, and Changsha-Xiangtan West Line Expressway in the west, and it is close to the gate of Changsha-Shaoshan-Loudi Expressway. The project covers a total area of 1028mu and a total building area of about 1.2 million square meters. The 1# land parcel being developed currently is located in the north of the project, and it covers an area of 150mu and a building area of 170,000 square meters, and it mainly constructs the 4-storey single-detached, semi-detached, and flatted factories.</p> <p>We sincerely invite the enterprises engaged in cultural creativity, new energy, environmental protection, new material, bio-medicine, instrument, inspection and testing industries to enter.</p>	Sole-venture	400000	Phase I of 1# land parcel has completed 50,000 square meters, and been sold out and delivered; Phase II, 50,000 square meters of plants are under construction with structure completed and under pre-sale, and the saleable area reaches 500-6000 m ² ; Phase III, 70,000 square meters of multi-storey plants are predicted to be launched on March 19, 2018. 155	Investment Invitation project for Longping Hi-tech Park Changsha Modern Service Industrial Park	<p>The project faces Changsha County in the east and Yingpan East Road, truck road of Changsha in the south, reaches Beijing-Zhuhai Expressway in the west and borders national-level Changsha Economic & Technical Development Zone in the north, 5km away from Changsha Railway Station, Wanjiali Elevated Fast Track, Changsha-Zhuzhou Expressway, Changsha-Liuyuang Expressway and Airport Expressway; 10km away from Huahua International Airport, 15km away from Changsha New Port, about 10-minitue drive from Changsha Maglev Express and Wuhan-Guangzhou High-speed Rail. It has favorable sea, land and air traffic conditions and obvious regional advantages.</p> <p>The project is developed and constructed by Hunan Guangfa Longping Hi-tech Park Business Incubation Co., Ltd. with a total investment of RMB one billion Yuan, which is an ecological, environmentally friendly, conservation-oriented and intensive enterprise zone integrating scientific research office, manufacturing, enterprise incubation, enterprise headquarters, living facilities and other functions. The project is industrial land, covering an area of 108.29mu and a total building area of 318,576.21 square meters. It is divided into three functional zones of innovation and start-up scientific and technological incubation zone, production, processing and warehousing zone and comprehensive supporting service zone. The content of construction mainly includes four 16+2 floors of (basement) incubation building; three 8+2 (basement) floors of standard industrial premises; four 8 floors of standard workshops and one 10+2 (basement) comprehensive supporting building. The underground building area is 64,027.78 square meters. There are 190 parking spaces above the ground and 1,652 parking spaces below the ground, total number of parking spaces is 1840. The project is developed and constructed by two stages. The investment in Phase I is RMB 580 million Yuan, it covers an area of 69.45mu, a total building area of more than 190,000 square meters, a building area above the ground of more than 160,000 square meters and a building area below the ground of more than 30,000 square meters. It is one of the standard industrial premises which is easiest to use and has comprehensive functions, highest standard, convenient traffic and best quality in Changsha, and can meet the individual requirements of different customer enterprises. It is also the only universal standard workshops service park in Changsha.</p> <p>By flexible way of combining sale and rent, the project introduces enterprise headquarters, e-commerce platform, medicine sales, food engineering, light industry processing and scientific and technological enterprises to settle down for mutual development. Upon the completion, it can accommodate more than 300 scale enterprises to settle down, with the annual output value reaching to more than RMB 3 billion Yuan and tax revenue reaching to more than RMB 100 million Yuan.</p>	Selling, Leasing	100000	The project has been reviewed by joint conference on industrial real estate in Changsha and is listed as the innovation and start-up “ 135 Project ” in Hunan province. Phase I project construction is underway.	Hunan Guangfa Longping Hi-Tech Park Innovation Service Co., Ltd.
