The 1.5-km section built during the 2022 Spring Festival period, with many tourists waiting for surfing the first time, Zou said. "Families are keeping the trends alive after the festival," said Huang Hui, Mowading, director of the Wushanlin Island Scenic Spot.

The typical calm, balmy bays of the tropical island to enjoy its unique culture and experience.

"It's important that pediatricians help patients locate more positive outlook on life and help resume their functions. I believe that the influence of this is far-reaching potential therapy," she added.

"Doctors in different departments share the same goals, including hard work, fatigue and a relative low-pay scale to add," she said. "I hope we can show young patients low that we can be and that when they smile at doctors, this will be the day," she added.

"As a pediatrician, I am engaged in the inner children's physical health to feel healthy and happy," she said.
